Betty White's Update: "Betty spent her life in a pen, and came to us with mammary tumors, teeth falling out, and very poor skin condition. Within two weeks she made the transformation you see above, it was astounding! Just some good food, love, and Liquid BioCell Pet! Her fur and eye condition dramatically improved, and has continued to improve since then too. She went from ZERO energy when she came to zooming around the yard like a crazy dog in just two weeks. Really, her photos and video speak louder than any words we could say about the improvement. Please contact biocell@dogsdeseverbetter.org for more information.

Chris Doolan Ottosen I get fish oil and glucosamine for our dog (8year old lab), from Puritan's pride (internet) I get the people version and wrap each pill in a half slice of cheap white bread, it's really made a difference in his mobility and activity level

Dogs Deserve Better 🐕 Studies show that glucosamine affects insulin levels. It is given to rats to induce diabetes for testing. Liquid BioCell is a far superior supplement!

Kathryn Ruhl Do not vaccinate annually. It causes cancer and skin conditions

Chris Doolan Ottosen I could find no documentation about this, in fact all the dog/glucosamine sites promote it, including vets
