User Testimonies The following information has not been evaluated by the FDA or by 4Life™ Research. We do not claim that 4Life™ products directly prevent, or cure any disease. We do not suggest that anyone should replace traditional medical treatment with our products. 4Life™ products are promoted for their ability to enhance the effectiveness of our natural immune system functions. On this website you will be exposed to many testimonies and nutritional ideas. We encourage you to use common sense and prudence in evaluating testimonies, research, and the opinions of individuals who post on this board. Testimonies can be based on "placebo effects," which basically means that you can experience temporary results just because you really believe you will get better. "Placebo" results generally fade a way after a short period. Keep in mind that some of these statements and testimonies come from distributors of these products and may have a conflict of interest. See what hundreds of customers are saying about the life-changing and life-saving Transfer Factor™

"I began taking three Transfer Factor a day after receiving a post card with the NK cell study on it. I was constantly fighting sniffles or coughs and I have not had these since using Transfer Factor." C. C.,

"Since I have been on Transfer Factor and added Fibro AMJ I have never felt better. I can put my arms over my head, and even place them on the arms of my chair. I fully believe in these products and will never stop using them." C. A.

"I have suffered from a **severe asthma and allergy condition**. I used an inhaler twice a day. I was literally miserable. After taking Transfer Factor™ for a month, I have amazingly improved. I now use the inhaler less than half as much and wake up without the swollen eyes and congestion." Justin P.

"Transfer Factor™ and Fibro AMJ™ have really made a difference in my life. After a bout with **polio** when I was 28, I have suffered from **spasms and pain in my neck, back, and shoulders**. I've suffered bipolar problems, panic attacks, and migraines since I was a teenager. My migraines have been chronic for the last 16 years and almost constant. I have multiple sclerosis. I have days of partial paralysis and extreme flu-like pains. Since I started both of these products a little over four weeks ago, I find that I have had more good days. I still have bad days, but they have not been as often or lasted as long. During my good days, I feel that I have more strength than I had before." Sue H.

"I suffered with **severe allergy symptoms** for 8 years. Anytime there

was a high pollen count I would experience swelling, itchy, red eyes, and terrible sneezing fits. I originally began taking Transfer Factor™ to treat an infection. I took 15 per day for the first three days, then 7 per day after that. Within 10 days, my allergy symptoms were completely gone. I have now been allergy free for 15 months. I maintain a dose of only three per day." Chris M.

I see tremendous, results in my personal life. Quite particularly, I have a little boy who is eight years old. He is an **asthmatic**, and just recently had an asthmatic attack, it was lasting for awhile, and when you have that much mucous there is a tendency of overgrowth of bacteria and doctors right away, of course, call in the antibiotic. I chose to use Transfer Factor™ instead of the antibiotic and had tremendous and rather astoundingly quick results in the matter of a few days where I could see that he was very well clearing up. When bacteria is present with an asthmatic there is some nasty color to the mucous. That was just beginning to clear up and I was overjoyed. We know that when we use antibiotics they deplete intestinal flora. That sets a whole chain reaction of events. So if we're able to find something, especially for children as well as everyone, that we can give instead of antibiotics this is something that is cutting edge, extremely exciting, and something that I would even love to thank God for. So that was one of my personal experiences with my son and something very close to my heart. June F.

Thanks to Transfer Factor™, my husband's **asthma** is abated and my son-in-law's asthma is abated."Gaye L.

I have been ill for the past 6 days with a **sinus infection**. I started on the Transfer Factor Plus™ yesterday. This is my first use of it. It is amazing! After 12:00pm today my phelm is now clear and my bad sore throat is gone. I think I have found something of great value. I think anybody with allergies should have this in their medicine cabinet. Judith Alyea

Originally Cynthia was taken to the emergency room in very serious condition and then she was placed in ECU, where she has remained since then. The head **physician didn't see how see could live**. The **bacteria had ravaged her muscles, liver, pancreas, and kidneys**. For at least ten days Cynthia has suffered from kidney failure gaining over 30 pounds since she could not eliminate liquid. They used furosemide to move some of the liquid through her, but the kidneys were not purifying. The kidney marker was up to 12+ and the physician didn't believe there was much chance that the kidneys would ever function again. We talked the physician into using Transfer Factor™ after it didn't look like the antibiotics were going to do the job and seemed that the kidneys were to far gone. I am very happy to report that we got word from the hospital today 13 days later that Cynthia is be released tomorrow from the hospital. One of the nurses said, "she had never seen a patient come back from the condition that Cynthia was in, it must have been devine intervention." Of course we cannot know exactly what the total answer was that saved Cynthia's life. Cynthia has been ill for 17 years. Before she had this last event, her body weight was down to 89 pounds so when she was hit by this ravaging infection it was considerably more dangerous. The doctors shared no hope that she could recover, actually just the opposite. Today she is laughing, joking and excited about going home. Was it Transfer Factor™? Was it the wonderful care of the doctors and nurses? Was it prayer? Maybe all three. We are finding over and over

again that wonderful things can happen when your immune system is filled with intelligence and working at top efficiency. Thanks for all of your prayers. Kay Bergen for Cynthia Bergen

"Since my son, Elijah, was born he has suffered from **severe ear infections**. He was constantly put on antibiotics and had tubes put in his ears. He is now four years old. He has been on Transfer Factor™ he has not experienced an infection." January Jackson.

"My granddaughter is 2 and she had the **flu virus**. She was on four different kinds of antibiotics for 4 months and she was not getting better. So I started her on three TF in the morning and three TF at night, and the next morning the sniffles had started to go away and within 4 or 5 days she was completely cleared up. My husband and I have also had wonderful success with allergies." Sue H.

Last Wednesday I started to get **another ear infection** in my left ear. I get these stupid things about 4 or 5 times a year and they usually send me to the nearest clinic or emergency room about midnight. It seems to always happen at night and/or on a weekend. By 11P.M. the pain was going down my neck. Not good. When that happens I know I'm really "in for it" and am headed to the clinic - fast. It usually takes 2 to 3 days for the antibiotics they give me to get rid of it when it gets to this stage. I decided to "test" my new Transfer Factor Plus™ with me as the guinea pig. I took 4 about 11Pm, got up at 3AM and took 4 more, got up at 7AM and took 4 more, got up at 10:30AM and took 4 more. Now that's probably way too much but I was hurting and didn't want to mess around. The pain began to subside, instead of increasing, by the time I got up at 7AM, and was completely gone by around 2PM Thursday afternoon! Jim Clary

"For the past fifteen years I have suffered from **chronic bronchitis, regular sinus infections, and severe allergies**. I suffered from fatigue, migraine headaches, joint pain, and an overall weakening. After eight months Transfer Factor™, I am a new person. I feel like Transfer Factor™ saved my life. I tried every nutrient that I could find, but only Transfer Factor™ made the difference." Naomi Jackson, Kansas.

"My mother experienced a very excruciating death from an aggressive form of **ovarian cancer**. I was only in my early teens and she was 32 years old. Her sister died of this cancer. We have a very strong genetic tendency toward cancer. I have feared this all of my life. In December of 2000 I had a tumor 10+ inches in diameter removed and immediately went on chemotherapy. Since my mother was a vitamin freak and still died, I wasn't that big on nutrition. My dad talked me into going on TF+. My oncologist was very impressed with how strong my immune system stayed throughout my chemotherapy. I know there is not way to scientifically prove it, but I really feel that my strengthened immune system made the difference between what happened to my mother and her sister, and myself. Now in February of 2001 I am alive and well." Angelia Howard

"I have a **thyroid goiter** and have been on medication for many years to control its size. Even with the medication, I have always been able to see or feel it. On the fourth day after starting 4Life™ Transfer Factor™, I noticed that the enlargement (goiter) on my neck was smaller. After using 4Life™ Transfer Factor™ for about ten days, I could not see or feel my goiter at all. I hadn't even thought 4Life™ Transfer Factor™ could help. But it did and I'm still feeling great!"

Gaye L.

"My partner Barbara and I have worked for 4 years with herbs & vitamins to restore my health. 4Life™ Transfer Factor™ has done that in less than 3 months! Over the past 4 years, I have experienced **chronic bronchitis, sinus infections**, and other conditions. I take every herb or vitamin I can get a hold of to build up my immune system. In the last 6 months, I have been on antibiotics 4-6 times with sinus infections. I started taking 6-9 4Life™ Transfer Factor™ a day. Within 3 days I started breathing better than I had for 4 years. 4Life™ Transfer Factor™ is the only thing that has been able to bring my energy level back up to where it used to be." Julie C.

"While traveling in Detroit, three co-workers and I ate **contaminated food**. The three men became seriously ill for two days, while I only experienced a mild stomachache. I was on Transfer Factor™," says J. Stover.

"My granddaughter was scratched by a cat at the age of four. She contracted some kind of bacteria. **A lump appeared on her throat**. The lump was surgically removed, only to grow back. She is now twelve years old and has suffered sore throats and the lump for all of these years. Her physician gave her every appropriate antibiotic without results. After one week on Transfer Factor™, the lump and sore throat disappeared." Richard Talkington, Illinois.

I spoke with 2 of my friends whose fathers are undergoing **chemotherapy and taking the 4Life™ Transfer Factor™**. Both gentlemen, upon running out of 4Life™ Transfer Factor™, became ill, one with pneumonia, and the other with a cold that ran him down. They promised to keep Transfer Factor™ available. Bianca L.

"Last summer I was diagnosed with [**a serious chronic condition**] at the age of 74. I started on 4Life™ Transfer Factor™ and was able to keep my energy levels up between chemotherapy sessions. It even helped with the cold sores I frequently got. A couple of months ago, the doctor told me I had made a complete recovery from my [condition]. the doctors think it's a miracle but they believe the 4Life™ Transfer Factor™ definitely had something to do with it. I am so thankful." Rose W.

When I was only 27, I received the terrifying news that I had **Hodgkin's disease**. I was devastated. The tumor in my chest cavity was so large that I completely filled my entire rib cage. I began on chemotherapy. At that time, my immune system was down to 2000 points. I had a friend who I knew could help me with nutrition; his name is Mike Akins. Mike recommended several supplements to strengthen my immune system. Then, Mike introduced me to Transfer Factor™, and I began to take 12 a day. Much to my doctor's surprise, my immune system began to go up. In fact, it went all the way BACK up to 7200. The doctors said that they had never, ever seen anyone's immune system go UP during chemotherapy. Well, then the chemotherapy began to fry, literally fry my lungs, so they had to discontinue it. Amazingly, while off of the chemo, and on the Transfer Factor™, my tumor continued to shrink. Again, the doctor's were shocked, but I went ahead and took radiation with my immune system staying up!! Now I am taking Transfer Factor™ and Transfer Factor Plus™. My tumor is completely GONE, and I am 30 years old. I have been free of cancer for over 10 months. This is not just a necessary product for everyone; it is something I will never be without. Thank

you Mike Akins, thank you Dr. Rob and Transfer Factor™. Ann L.

I was cutting some chicken and **I cut my finger**, and I cut it very badly where it did need even a couple of stitches, but I just did a butterfly stitch myself. In the middle of the night I woke up in stabbing pain, went downstairs, and saw that the finger was about two times its normal size, very well infected and inflamed. I took Transfer Factor™. I did it again in the morning and then went to work and came home, and when I unwrapped that finger it was rather amazing. It's almost unbelievable for me to say that, in fact, the finger was reduced in its size, the inflammation had gone down, the infection was obviously doing better, then within the next couple of days it entirely cleared up. Transfer Factor™ is the answer and I'm very, very grateful for this company and for the doctors who have done the studies and research behind it. June F

I'm almost embarrassed to say I was so skeptical it took me three months to listen to what Transfer Factor™ would do for me. But I had a **very bad skin condition on my chin and I had spent thousands of dollars going from doctor to doctor and they literally could not correct it**. I tried every medication you could think of and they just simply gave up. Well it was really upsetting to me, as you can imagine. I finally gave in and I tried Transfer Factor™ internally and even topically. Within about 12 hours for the first time, it began healing over and my face is practically back to normal now. I'm just so thankful for the product. Bonnie T. .

I am 52 years old. I have suffered from a **bad, bad cold every year** for more than a dozen years. I start taking Transfer Factor™ two years ago and haven't experienced a bad cold since then. I will feel like I have a germ in my by it never goes anywhere like it used to. Ron McConnell

I had been suffering from a **recurring fungal infection on my neck and shoulders**. My doctor prescribed an anti-fungal drug, which made the problem disappear temporarily. However every two or three months the condition would flare up again and I would have to go back to the doctor for another prescription. I started taking Transfer Factor™ in July of last year. Since taking the Transfer Factor™, the condition has gone away completely and has not returned in over 9 months. There's no question this outstanding product works! Ron Santoro

Joints, muscles, bones, fatigue, and fibromyalgia type conditions "I am approaching the 50 year mark. I have abused my body for years. My joints give me a lot of trouble. I have trouble sleeping at night and I am very stiff in the morning. My muscles ache and I feel fatigued much of the time. I have taken other nutrients with a degree of success, but still suffered. After being on Transfer Factor™ and Fibro AMJ™ for four months, I am amazed at how I feel. Thank you 4Life™." Frankie P.

"I suffered from the symptoms of **Fibromyalgia, arthritis, and chronic fatigue syndrome**. I have tried other nutrients with a degree of success. After consuming Transfer Factor™, Fibro AMJ™, and BioVitaMins™ for a couple of months, my symptoms decreased by at least 50%. Now, after six months, I am virtually symptom free," proclaims Kay B.

I've been taking the 4Life™ Products for about nine months now. And I started them with the goal of reversing the **Fibromyalgia symptoms** that I've suffered for about twenty years. I've tried a lot of different things over the last twenty years and really had learned to cope with the condition until about two years ago. Then at that time I really got into a downward spiral that just never seemed to stop. It included chronic pain, and fatigue, and sleepless nights and depression and so forth. I started on the products, Fibro AMJ™ Complete Pack and Choice 50™, and in about two weeks. I was sleeping better. After about two months on the product, I felt like I had just walked out of a tunnel into the light of day. After three months I reached a level, I would say, of 95 percent symptom free, or status of 95 percent symptom free living. I've really enjoyed that level of health for the last six months. I really do appreciate that, and I really am thankful to 4Life™ Research for that opportunity to, to reverse the symptoms of Fibromyalgia. I've also been able to help a lot of people with that condition. Bonnie P.

I have **fibromyalgia and MS**. I just have been in lots and lots of pain for years. It started with migraines when I was younger and then I had polio when I was 28. From that time on, the pain and the chronic migraines just got worse and worse. Finally last year I ended up in bed and felt like I was a piece of cooked spaghetti because I just lost all my strength from my neck down. I had used a lot of herbs. I had been to a lot of doctors, and had used alternative remedies for years. Then I had a friend that talked me into using Transfer Factor™ rather, and I started out with four or five a day and worked up to eight. Then Dr. Robertson told me that I needed to get on ten or more a day. I started out feeling just a little bit more strength if I lay in bed. I'd get a little bit stronger and a little bit stronger. . Little by little I got stronger and then I had more time between my episodes. Finally after about two and a half months on the product, I got feeling really, really good and didn't have a lot of episodes until I went outside and started pulling weeds. That kind of knocked me down again for a day. I have been using at least eight Transfer Factor™ capsules a day and for the pain I've been using the Fibro AMJ™ which has just been fantastic. Whenever I start feeling the pain come on, I use that. I take two in the morning and two in the afternoon and then whatever else I need. The Fibro AMJ™ nighttime, I use that and it has helped because my left side would hurt, or my legs would twitch, or whatever. It has been just fantastic. Then Dr. Hennen and I got talking after the TF Plus came out. I am still using both the Transfer Factor™ and the TF Plus™. I'm just doing great. In fact I'm out jumping on the trampoline with the grandkids sometimes. It's just been fantastic, and I've been able to work this business now and it's just fun. Sue H.
