Jeunesse Reserve Testimony on Fibromyalgia....

[View translation](#)

Fibromyalgia?
is what Reserve has done for me!

I was diagnosed with fibromyalgia 5 years ago. I have struggled daily with pain, depression, and feeling incredibly drained! I take medications daily with little relief. I have tried **MANY** supplements and diet changes but had yet to find anything to help. I happened to be in a store when I received my products and tried Reserve. After a few days my pain level dropped significantly and I felt better than I have in years! It hasn't cured me but it is such a blessing. I actually have days that I actually feel "normal"! I truly believe in Reserve!! I tell **EVERYONE** about it!
 (My favorite supplement)
