ok you guys....bragging time! So I have a friend that suffers really bad from Fibromyalgia.

I gave her some Reserve to try from the Jeunesse product line and she just informed me that she hardly had to take any of her meds to control her pain.

Jeunesse is going to be doing some big things in the future. Totally love Jeunesse and will be forever faithful to them.

**Bruce Seah** I know Reserve has helped many people with skin conditions such as eczema and psoriasis. Sometimes the immune system goes off balance and attack the body with skin diseases. I experienced eczema on my left leg and after about six weeks on Reserve it was totally healed! We are told not to have cure claims but if it is complete gone, then what do you call that? I would say that the miracle is not in the product, it is the human body's ability to heal itself when given the right nutrients! God bless!

**Shannon Crawford** Yes it has helped me...I had to take Pain meds every single day without fail just to deal with every day life...I can truly say over the past month I've had maybe one or two days where all I took was a tylenol...that was it!!!
