HEADACHES

1. "I am a young woman with fibromyalgia, with symptoms like migraines, muscle aches and exhaustion. I started on the transfer factors and Fibro AMJ system and am able to get out of bed and do the activities of daily life." Kelly Z.
2. "I have suffered for several years from rheumatoid arthritis, allergies, fatigue, chronic bronchitis, weakness in my muscles, and headaches. After being on transfer factors and enhanced transfer factors six months I have experienced a tremendous recovery. My allergies are barely noticeable, I haven't had a case of bronchitis for several months, my headaches are gone, I feel strength returning to my muscles, my rheumatoid arthritis doesn't hurt and looks a bit better, and I am full of energy. I have taken noni, ambrotose, microhydrin, MGN-3, Ag-immune, Biomune, and the list goes on. None of these products made much of a difference. When I was approached by a company distributor I was very negative about it. They offered my first bottle free until I checked it out to see if it would work. WOW! I am now a believer there is nothing like transfer factors." George Cole
