TESTIMONIES

"As a medical practitioner for 25 years, I have enrolled myself in 16 different MLM companies dealing in health products. I have never recruited anyone and finally I quit. But it was totally different with these products. Transfer Factor products have helped many to improve their quality of life including myself as they produce fast and sustainable results. By using me as an example I find that I can convince others to use these products too."

- Dr Robiatun Aduwiyah, Malaysia

Testimonials

Read what some medical doctors and physicians say about transfer factors

Transfer Factor is the most promising breakthrough in health care discovered in the past several decades. We are just beginning to explore all of the potential of transfer factors. Neutriceuticals like TF are the wave of the future

- Dr. Victor Tutelian, MD, MPH

Why Some Doctors Recommend Transfer Factors?

"I'm a cancer physician. I primarily treat female cancer and certainly encourage my patients who are undergoing chemotherapy and radiation therapy to take transfer factor. It helps to modulate the immune system and is great for overall health. I have patients with chronic herpes infections who are taking transfer factor on a regular basis. These patients have reported a reduction in the number of outbreaks. I've also had patients with chronic yeast infections consuming transfer factor and are reporting improvement as well.

Transfer factor is a science-based product with excellent data from a variety of researchers."

- Duane Townsend, MD

Dr. Townsend has had more than 32 years of distinguished experience in the medical field. He pioneered a surgical technique for the treatment of pre-malignant disease of the uterine cervix. In addition, he has authored more than 90 scientific papers in peer review journals as well as over 15 chapters in research books.

Transfer Factors Works!

"I believe transfer factor is, without a doubt, the greatest discovery of the century in supporting and modulating the immune system. I believe a strengthened immune system will be the primary way to stay well in the future. This nutrient can affect the immune system like nothing else can. I sincerely believe everyone needs to consume this product."

- Rob Robertson, MD

TESTIMONIES

"In my many years as a professional medical doctor I have never met another supplement as effective as transfer factors which have helped me to treat patients with chronic ailments. I would like to recommend transfer factors to anyone who wants to have an optimum health!"

- Dr Sani Ashari, Malaysia

TESTIMONIES

"Transfer factor products have been available in Malaysia for several years as a health supplement. Although many have claimed that they attained various health benefits, the results in treating cancer have not commensurated with the claimed increase in NKC activity. I suspect that the main reason is that insufficient doses have been used. For most nutritional supplements used for nutritional cancer therapy, I have advocated the highest safe doses. TF, like many other nutritional products, does not have a toxic dose, and therefore there is no worry of overdose. So those who hope to find cure in such products should take the highest affordable doses."

- Dr Amir Farid Isahak, Malaysia

"I have now completed a retrospective study comparing children in our practice with those who did not use transfer factor during the same period. Eighty-seven children, age 8 months through 9 years, used transfer factor. We found 74% less reported illness and 84% less reported use of antibiotics."

- David Markowitz, M.D.

Dr. Markowitz is a pediatrician in Kennebunk, ME with a patient base of 4,500 children and has served as the Senior Pediatrician in a Private Pediatric Practice for 19 years. He received his Bachelor of Science degree from the University of Rochester in New York. He received his medical degree, general Pediatric training, and Pediatric Hematology/Oncology Fellowship from the University of Connecticut School of Medicine in Farmington, Connecticut.

"There is no other product in a nutritional substance, NOR a drug, that has this kind of power and ability to affect our immune system. With the increase of killer viruses, mutated germs, super-resistant germs, and food contaminations, our only hope and defense, must lie within our own immune system."

- Darryl See, MD

Dr. See received his degree from the University of California, Irvine. Academic appointments include: Assistant/Associate Clinical Professor of Medicine: Investigator, California Collaborative Treatment Group: and Infectious Disease Consultant, Liver Transplantation Service. He has received contracts, grants, and research awards from Pfizer Pharmaceuticals, Upjohn Pharmaceuticals, Roche Molecular Systems, Harvard Biotechnology, National Institutes of Health, Department of Defense, and more.

"There is so much we can do and need to do. I honestly feel that Transfer Factor is needed by everyone everywhere. Because people don't know about it therefore they are not taking TF products to enhance their immune system. In all honesty in my 43 years of medical practice I have never come across any pharmaceutical or nutraceutical products like Transfer Factor products that will help us to get well and stay well. I have committed myself to take on this mission to share Transfer Factor with everyone I meet."

- Dr. Benny Foo.

Dr Foo is a medical (MBBS) doctor who has practiced for more than 40 years in Malaysia, Singapore and in Australia. He was also the President of the Australian Chinese Medical Association of Victoria, and is on the Course Advisory Committee in Chinese Medicine in RMIT University, Senior Lecturer & Course Director of Acupuncture Foundation of Australia, Past President of Australian Medical Acupuncture College. \*\*Dr Foo was Awarded the prestigious Medal of the Order of Australia during Australia Day 2008.
