### Kidney Disease

#### KIDNEY

My son has had kidney problems since he was born. This has caused him to be constantly weak and constipated. His urine was also very cloudy. He is now 12 years old and needless to say he has suffered for 12 years. Every 3 days he had to be taken to the hospital to see the doctor. Then, I started him on Transfer Factor - 4 capsules of Advanced Formula and 60ml Riovida each day. 3 weeks later, I noticed a significant improvement. He was going to the toilet daily, and his urine had cleared up. He had more energy and could go out to play with his friends after school. He could also sweat when he could not previously. Before Transfer Factor, I had put him on many different types of medication and food supplements which have never helped. Transfer Factor has changed everything and improved his health. I have full confidence that Transfer Factor is very effective.

Chua Lea Ping, 45 years old, Female, Seremban, Negeri Sembilan, Malaysia.

#### KIDNEY

A couple of weeks ago I got very, very ill--so ill that I had to go to the hospital. I had a tremendous pain in my side and I was pretty sure I had a kidney infection. It usually keeps me down for about 20 days. For a week and a half, I couldn't eat and I threw up and had diarrhea all day long. My husband got in contact with someone who was a distributor at the company and I decided to quit all my other pills and just take transfer factors. The next day, I took nine--three in the morning, three in the afternoon, and three at night. The day after that, I had my first meal. I was grateful that I felt so much better. I really believe it's the transfer factors that have given me the energy that I need.

Isabel A.

#### KIDNEY

"My mother, who has suffered with a serious kidney disease for the past 10 years, and tore her Achilles tendon away from the bone around a year ago, began taking transfer factors, along with Fibro AMJ, 7 days ago. She has been taking about 10-12 prescriptions for the above conditions, none of which had helped with her heel problems. Starting on the 4th day of taking the T.F. & Fibro AMJ (A.M.), at the recommended dosage of 3 each per day, she began to

notice an improvement. Today, she says it's better than it's been for a very long time, and is reporting that she's also feeling an improvement in her general well-being. She must be, since over the past few days she has vacuumed her house, washed some windows, and washed & waxed her car. That's more activity than I've seen from her in years! Many thanks to everyone involved with these remarkable products. My mother-in-law is starting the same regimen next week. I'll keep you posted on her progress, as well."

Jill.

### **KIDNEY-NEPHROTIC**

My son Jasper, was diagnosed with nephrotic syndrome (in laymen terms - kidneys not able to sieve protein molecules) when he was 11 months old. He is now 7 years old. His prognosis was not good; his health got worse from year to year. I almost lost him on September 11, 2001 after he went into shock and lost consciousness due to attacks from Chicken Pox and another stomach virus. I was advised by the doctors to improve his immune system, otherwise he will have a high chance of having kidneys failure in 2002. He has been treated with steroids, so much that he had become steroid dependent. The toxicity of steroids can be seen on his face and all over his bloated body. In June of 2002 I started him on TF+, 6 a day. I could see visible results after only 2 weeks. His hairy hands and body became not so hairy. He started to slim down. His daily pee test showed no trace of protein. Since then he is sick less and he recovered from a cough without antibiotics. So far, he has not fallen ill except for 2 times of cough virus attacks. This is unlike the past when I had to visit the doctors for antibiotics every other week. Currently, he is living like any other normal kid. I do not need to control his diet. He was on salt free diet for the past 5 years.

CY, Malaysia.

### **KIDNEY INFECTION**

The grandmother of my friend was in the hospital with a severe kidney infection. The doctors had planned on putting her on kidney dialysis. My friend gave her Chioce 50 and TF+ while in the hospital. Within days the infection cleared up and the doctors sent her home saying that she does not need the kidney dialysis. My family has taken grapeseed for many years and truly believe in its healing power. We are extremely happy with the products and would recommend them to anyone.

Darlene, NC.

### **KIDNEY FAILURE**

Originally Cynthia was taken to the emergency room in very serious condition and then she was placed in ICU, where she has remained since then. The head physician didn't see how she could live. The bacteria had ravaged her muscles, liver, pancreas, and kidneys. For at least ten days Cynthia has suffered from kidney failure gaining over 30 pounds since she could not eliminate liquid. They used furosemide to move some of the liquid through her, but the kidneys were not purifying. The kidney marker was up to 12+ and the

physician didn't believe there was much chance that the kidneys would ever function again. We talked the physician into using transfer factors after it didn't look like the antibiotics were going to do the job and seemed that the kidneys were to far gone. I am very happy to report that we got word from the hospital today 13 days later that Cynthia is be released tomorrow from the hospital. One of the nurses said, "she had never seen a patient come back from the condition that Cynthia was in, it must have been divine intervention." Of course we cannot know exactly what the total answer was that saved Cynthia's life. Cynthia has been ill for 17 years. Before she had this last event, her body weight was down to 89 pounds so when she was hit by this ravaging infection it was considerably more dangerous. The doctors shared no hope that she could recover, actually just the opposite. Today she is laughing, joking and excited about going home. Was it transfer factors? Was it the wonderful care of the doctors and nurses? Was it prayer? Maybe all three. We are finding over and over again that wonderful things can happen when your immune system is filled with intelligence and working at top efficiency. Thanks for all of your prayers. Kay Bergen for Cynthia Bergen
