Reserve™

Mr. Tan was a Stage 4 prostate cancer patient. At 77, and with the cancer having spread to his bones, the doctor said that he was too old and weak to undergo chemotherapy. He was given only 6 months to live.

Mr. Tan's daughter, Alice, was desperate to find something to help her father. One day, a friend told her about RESERVE™ and how its key ingredient, resveratrol, can help fight cancer. After reading-up on resveratrol, Alice was eager to try RESERVE™ on her father. Alice was living in Australia, while her father lived in Malaysia, and RESERVE™ had just been launched by Jeunesse in the US market. Thankfully, Jeunesse adopts a global approach to its business and despite RESERVE™ not being available in Australia or Malaysia at that time, Alice was still able to create an account with Jeunesse on-line, order RESERVE™ and have it shipped to her father in Malaysia from out of the United States.

Today, thanks to RESERVE™, Mr. Tan is cancer-free and enjoying life as a healthy man. The test results below show decreases over time in his cancer markers (PSA or prostate-specific antigen), after he started taking RESERVE™. PSA is a protein produced by prostate gland cells. PSA is found in high levels in men with prostate cancer and is used to monitor the progression of prostate cancer.

Pm me

The collage contains three main images: a photo of a man in a white shirt, a circular diagram listing ingredients like Acai berry, Blueberry, Green Tea, Cherry Juice, Grape extracted, Acai vera, and Pomegranate, and a purple product box for RESERVE antioxidant fruit blend.
