The lady in red jacket had womb cancer stage 4. She almost gave up her life due to the pain she had to go thru even after lots of different supplements and drugs doctor gave. You name it she tried all kind of health products.. All didn't help. Till her uncle told her abt Jeunesse Reserve. She was skeptical at first but her hubby was very supportive. Told her to try as uncle won't lie. He can't afford to work and look after their 3 young children if she gave up. Amazingly, whenever she drank the Reserve, the pain subsided. Today she is healthy and helping, sharing and recommending more cancer people to take Reserve. Now she is enjoying a free trip in Mediterranean by Jeunesse. So happy for her and her family. Let's help others find hope like we hope everyone to find Allah. Swt. In sha Allah. And we have all the goodies. In sha Allah.
