Status from Josh Bentley:

(Anxiety, Depression, Panic Disorder, Asthma, Eczema, Crohn's Disease, Anhidrosis, Paranoia, Insomnia and Periodontal Disease.) These are 10 diseases that have effected me in my 28 years of life. Friends have sat in bathroom stalls with me, praying over me and my severe abdominal pain. I haven't left the metroplex in 8 years because of my anxiety. I have a service dog because of my panic disorder, which is hard because it effects my asthma. My depression took me away from social settings and kept me alone and in early stages, suicidal. My anhidrosis has made me miss summer fun and being out on the lake. My Crohn's has made me miss weddings, birthdays and funerals, missed once in a lifetime events and made me move home because I couldn't take care of myself. My insomnia amplified all my heath issues because I virtually never slept. All of this left me jobless, carless, broke and homeless. In and out of hospitals and doctor offices. Selling and pawning all my possessions just to pay for bills and my nicotine addiction that helped me cope with the stress. Thank God for family and friends.

When I started Kyani on May 15th... everything began to change. May 16th my Depression was gone, overnight. May 17th, I awoke to realize I had slept all night long, a full 9 hours. May 19th, my anxiety had dropped by 90%. June 12th, my paranoia had decreased by 75%. I have sun tanned 3 times and even been sunburnt since I started and my anhidrosis has not affected me. My colectomy surgery is no longer necessary with Crohn's Disease as of June 28th. In fact I can't remember the last time I had to think of how my stomach felt. July 10th, my skin has started to become more hydrated. July 25th I am put in a situation that I normally can never breathe in, my asthma is completely under control and doesn't affect me. In fact, I haven't used my inhaler in over 2 months, which used to be everyday. I haven't had a panic episode since I started. Less than 90 days... 60% of my medical demons have vanished.

You want to know why I keep flooding your facebook about Kyani this, Kyani that? You want to know why I give such a huge crap about giving you a free trial? Because 5 of these conditions could have killed me and 4 of them tried to. Maybe you don't need it, but I bet you care about someone. I bet you love someone. And what do you do when you care? You share...
