Wonderful testimonial:

Fiona Watkins

My testimonial

I am 40 almost 41 and I have 3 children 3, 7, and 12. My 7 year old has mild to moderate Autism. I have struggled with anxiety for more than half of my life. I have tried many prescription medications and seen a few different psychologists over the years, but none of them made much difference. I just suffered in silence and struggled each and everyday. I also had been diagnosed with early Hashimotos (an auto immune disease). My hair was falling out and I was constantly extremely tired. I decided to sign up to Kyani to improve my asd son and his meltdowns. My family and I have been taking the Kyani for around 6 weeks and I was very surprised that my anxiety has completely gone. My stress levels that were very high are now low. My energy levels have improved dramatically. I wake up energized. I get a lot more done around the house. I finally can smile and feel happy with life. I now feel confident enough to achieve anything I put my mind to. I also am much more social than the past and love catching up with old friends. My autistic son has huge success too. He has less meltdowns and is a much happier boy. Thankyou KYANI, you have changed my life. Thankyou for reading this.
