This is Gyle Thomas, He was 5 years old when diagnosed with medulloblastoma; a form of childhood brain cancer. During the tumor resection they hit both sides of his brain which caused him to develop posterior fossa syndrome, taking away his ability to walk, to talk and his motor skills. He lost all his hearing in his left ear and had vocal cord damage due to his chemo. He began taking the Kyani products through a feeding tube in June and slowly began regaining his motor skills

By September 2015 GYLE HAD REGAINED ALL HEARING, HIS VOCAL CORDS WERE PERFECT, AND HE WAS LEARNING TO WALK AGAIN!!!

The video shows Gyle yesterday in Dallas walking onto the stage with his Mom. Feeling so happy for his and his family and also for them giving their son Kyani and it working as we know it does and producing a wonderful result for Gyle! Thanks so much for always sharing his journey with us Sam!
