As many of you guys know ive beeb part of kyani for 2 months. I have been waiting on my appointment today to confirm what i thought to be true. Here is MY product testimonial:

Ive been a type 2 diabetic for almost 4 years. I started my journey in 2011 with 426 sugar level (normal is below 120) and an a1c of 11.7 (normal is below 6). I was rushed to the hospital on the verge of diabetic coma, sat in on a 9 hour insulin drip and was in the hospital for 4 days. My kidneys were failing leaking 1g of protein, my vision was affected and i never thought that this would happen to me at the age of 21. Through the last 4 years, Ive been on insulin and numerous pills and diets to help normalize my sugars and keep them controlled. On top of diabetes ive been battling IBS, Chronic inactive gastritis, severe esophogial reflux, neuropathy and everything else that comes with diabetes and gal bladder removal. Having children was also a concern because of my disease. This roller coaster has taken a toll on me mentally and physicaly and some days i cant help but be so down.

I started Kyani in february when i joined the business, i was on a diet and was temporarily removed from my meds. I got sick stopped the diet but continued Kyani. As of today 4/8/2015 I have been OFFICIALLY removed from every medication ive ever been on. NO MORE pills, no more shots just kyani!!!!!! AND Ive been given the OK to have kids!! Ive been waiting for this for almost 4 years and never thought id see the day where i no longer needed meds!! I am SO BLESSED to be part of something that is changing lives but has changed my life personally!! Big THANK YOU to Katie Mangum for bringing this too me. I know at first all i wanted was to get my self out of debt, but its done more than that for me!
