# [Heart and Cardiovascular Health with Agel HRT](#)

Written by: Yaron

There are a lot of families out there with histories of bad heart health. The number just seems to be getting higher as time goes on. Are you worried about your heart? Are you concerned that it's going to give out before you've had a chance to live out your entire life as you wish to?

People spend hundreds, even thousands of dollars a year trying to make sure that their hearts are functioning well. They do everything in their power to avoid heart disease and heart attacks. Supplements, exercises, doctors – Some people have truly tried it all...

What if there was an inexpensive supplement out there that had all of the vitamins and minerals necessary to keep your heart healthy, and able to be ingested the way that Mother Nature intended it to be? Now there is – The Agel HRT!

## **What is Agel HRT?**

Agel is a health and nutrition company that provides supplements and other health items that you take just the way Mother Nature wanted us to – not through pills or juices, but through what they call [suspension gel technology](#). Imagine crushing a berry – that's a gel, and that sort of gel can help you absorb all the vitamins and minerals in it quickly, safely and in high percentage.

In Agel's line of products, they have introduced a product specially formulated for your heart, called Agel HRT. HRT is scientifically formulated to help protect your heart, maintain a healthy cholesterol level, and maintain your cardiovascular system. This product is the perfect supplement to any heart-healthy lifestyle.

Agel HRT is incredibly important today, because cardiovascular disease is the leading cause of death in America, Europe, Australia, and Asia. We need to be doing everything we can in order to make sure that our hearts are healthy so that those numbers start to go down.

## What's in Agel HRT?

<b>Supplement Facts</b>		
Serving Size: 1 Packet (21 g)		
Servings Per Container: 30		
	<b>Per Serving</b>	<b>% Daily Value</b>
Calories	30	
Total Carbohydrates	7 g	2%

Oyster Mushroom Powder	500 mg	†
Taurine	500 mg	†
L-Carnitine	500 mg	†
Coenzyme Q10	50 mg	†
Policosanol	10 mg	†
** Percent Daily Values are based on a 2,000 calorie diet.		
† Daily Value not established.		

essential and semi-essential vitamins and minerals.

– Taurine is an amino acid is vital for reducing heart damage. Taurine also helps maintain the central nervous system and the heart muscles and by that leverages created energy.

Agel HRT is a mixture of several

- Oyster mushroom powder is another ingredient in Agel HRT. Medicinal mushrooms fight viruses and bacteria, and help the immune system. The oyster's membrane breaks down cholesterol.
- Folic acid strengthens the immune system and is considered to be “brain food.” It helps to keep several parts of the brain functioning at high capacity.
- Selenium is naturally created by the thyroid gland to help create antioxidants; this supplement when taken, will help this process.
- L-Carnitine protects the heart from hypoxia and stress oxidation – Essentially, it keeps your heart from “suffocating.”
- CoQ10 is a commonly used supplement that helps your blood pressure down and ,in addition, keeps your blood vessels clear and pure.

All of these minerals work together to help you have more energy, better metabolism and, above all, keep your heart and cardiovascular system healthy and strong.

One gel tube packet has your daily recommended intake (DRI) of each of these essential and semi-essential vitamins and minerals, and will help you to stay heart healthy.

# Scientific Summary

**Enzyme CoQ10** also known as ubiquinone or CoQ10. A naturally occurring chemical compound in the body that provides energy and fundamental cellular support to the heart\*\*. It is involved in chemical reactions in the heart including electron transport and other functions associated with energy utilization\*\*.

**L-Carnitine** Is a measurement of your body weight relative to your body height. A BMI less than 18.5 is considered underweight. A BMI of 18.5-24.9 is considered normal range. A BMI 25-29.9 is considered overweight and a BMI of greater than 30 places a person in the obese category. A healthy weight and BMI is based upon many individual factors and may vary for each person.

**Selenium from Selenomethionine** Is an high potency anti-oxidant when it occurs as an ingredient in dietary supplement products at a dosage of greater than 20% of the daily value. Each packet of HRT contains 100% of the Daily Value (DV) of Selenium from organically bound selenomethionine. Selenium is associated with healthy cholesterol management and provides anti-oxidant support to the cardiovascular system\*\*.

**Taurine** is a naturally occurring chemical compound in animal tissue (meat and seafood) and is a main constituent of bile. Agel sources a synthetic taurine and avoids the use of animal derived products in its supplements. Taurine is considered essential to support normal cardiovascular function and to maintain normal blood pressure\*\*.

**Folic Acid or Folate** maintains healthy homocysteine levels. Elevated homocysteine levels have been associated with degradation of the structural elements (collagen, elastin and others) of the artery. Considered essential to the body's processing and clearing homocysteine from the body. Elevated homocysteine levels have been associated with cardiovascular risk\*\*.

**Oyster Mushroom** is derived from *Pleurotus ostreatus*, a widely used edible mushroom (fungus) and used as an ingredient to support cardiovascular and cholesterol levels\*\*. Also called the Pearl Oyster Mushroom. Oyster Mushroom contains statin-like compounds that have been reported to positively impact blood cholesterol levels by regulating cholesterol metabolism\*\*. The statin-like content in Oyster Mushroom can be up to 2.8% on a dry weight basis. A daily dosage of one packet of HRT contains 500mg of Oyster Mushroom and at 2.8% statin-like content which converts to about 10-15mg per packet. The typical daily pharmaceutical dosage of statin medication is 10-80mg. If you have heart disease, or suspect you have heart disease, or are taking medications, you should consult with your physician prior to using HRT.

**Policosanol** has been associated with improving the balance of High Density Cholesterol and Low Density Levels of Cholesterol\*\*. A positive HDL/LDL ratio has been associated with cardiovascular health. Policosanol has also been associated with maintaining healthy blood flow in the body\*\*.

## What Do Real People Say About Agel HRT?

Check out below what customers have to say about Agel HRT:

Heart attack is one the most fatal death prone diseases. Furthermore it is known to be influenced by genetic factors. See below Jesse testimony how all of the close family started to use Agel HRT and reduced significantly their regular medicine...

*"When I was first introduced to HRT, I looked back on all close family members that I have lost. I also started to look at all the family and friends I could lose to heart disease. My mother has lost*

*both of her parents to heart disease and I recently almost lost my last grandparent to a heart bypass. Now, I have my whole family using HRT, my mother has been taken off her heart medications by her doctors and everyone I know knows the value of HRT.” – Jesse C.*

Agel HRT is considered to be effective by leveraging your energy, reducing the cholesterol levels and strengthening your heart. Abby’s testimony below expresses her experience & feeling after starting to use Agel HRT:

*“I was taking so many pills in order to try and help my heart be fit and strong. There is a long history of heart disease in my family, and I didn’t want to be just another statistic. Then, I found Agel HRT: My energy is up, my cholesterol is down, and I feel better than I did while taking all of those useless pills. Thanks Agel!” – Abby R.*

## Who Should not Take Agel HRT?

Pregnant women or lactating women with known medical conditions or who take medications should first consult with their physician before starting to take the Agel HRT.

Furthermore, the product, although it is an all natural one, is not intended for the use of children.

## How to Buy Agel HRT?

The ONLY actual place to buy Agel HRT is via the [Company’s official site](#)...

Note that in order to purchase the Agel HRT, you will need to create an Agel user by signing up via the Agel official website. So all you need is to enter your shipment info and payment details.

If you will decide, in the future, to order another Agel HRT pack, you will not need to re-enter your details on a second time – Just log in directly to the Agel site with the username & password of your created Agel user.

By registering to the Agel site, you will be allowed to purchase the Agel HRT pack of 30 every day packets at **a retail price** directly from the company.

The Agel HRT price in United States is \$65.00 (USD) for a pack of 30 daily packets.

The Agel HRT price in most Europe is €60.40 (EUR) for a pack of 30 daily packets.

Note, that although Agel products are sold all over the world in more than 60 countries, Agel works very tightly with each of the 60 country's health department to approve each product and perhaps the Agel HRT product is not yet approved to be sold in your country...

That's why, upon registering to the Agel site, you will need to enter your country name. After that, you will be exposed to the Agel products allowed within your country – Hopefully the list will include the Agel HRT...

## Does Agel HRT work?

Agel HRT is a scientifically proven suspension gel that can help you keep your heart and cardiovascular system healthy. However, to achieve great quick results, the Agel HRT should be accompanied with some kind of fitness exercise.

Agel HRT is an awesome product that will help you stop popping pills and help you start staying healthy in the way that Mother Nature wanted for you – with a healthy gel that is easily and quickly absorbed by your system. Why don't you check it out for yourself and start seeing the results in your heart health today!
