Another KYANI Testimonial : Mr. Edgardo Carlos of Malibay Pasay City suffered a heart attack last March, 2015 but survived. Since then he has taken a lot of synthetic medicines for his heart ailment for a year. He was still experiencing heart palpitations and tingling sensations in his chest. KYANI Health Triangle was introduced to him by my sister Alice Gervacio Cuevas and after taking and finishing one set of KYANI Triangle Pack his condition greatly improved towards getting well. After finishing a couple of triangle packs more he was well and heart disease free according to his medical check ups and tests.

Medical findings to date says that all CHRONIC DISEASES including heart problems, hypertension, diabetes, cancer, etc... start with the inflammation of veins and arteries due to the falling level of our NITRIC OXIDE (NO) in our endothelial cells in our arteries. Nitric oxide level in our body starts to deteriorate when we reach the age of 30 and above and gets critical at 40 then you cannot choose which chronic ailment will hit you in your twilight years when you are supposed to be enjoying life already. That's what KYANI does to you. It restores your nitric oxide level again so you will get well again and reverses your chronic diseases instead of living your life with numerous maintenance medicines and their dangerous side effects !!! Why wait any longer start taking KYANI and live life to the fullest !!!
