Why Use Amalaki?

Do you have any of these conditions?

Constipation

Depression

Diabetes

Hemorrhoids

Hepatitis

High cholesterol

Hypoglycemia

Indigestion

Inflammatory conditions of the GI tract

Urinary Tract Infections

Amalaki has traditionally been used to treat these conditions as well as symptoms associated with the common cold—cough and sore throat.

Benefits and Healing Effects

The herb is a strong natural antioxidant containing high levels of vitamin C.

That's one of the reasons why it such a powerful immune strengthener.

Amalaki provides support and nutrition to the digestive tract, inner and outer skin, arteries, and liver.

The healing properties of Amalaki extend to all tissues. It also has the ability to increase Ojas, meaning that it enhances energy, immunity, and fertility. Although it's appropriate for all doshas, it's particularly effective for balancing Pitta.
