A huge WHY Kyani is changing so many lives..... contact me for details on how you can also help yourself and others

Getting his sunrise earlier this morning via his feeding port.

This is my son and HE is my WHY!

He is now almost 4 years old, he has had a feeding tube since he was 2 weeks old. He was born with Williams Syndrome, which means he is missing some very important genes and chromosomes. At 2 weeks old he was also diagnosed as a Failure to Thrive infant and we nearly lost him.

Due to the Williams Syndrome he sees a handful of specialists for various health issues which include cardiac, pulmonary, thyroid, and joint issues to name a few.

As with most children with WS he is also developmentally challenged and has been considerably behind other kids in his age group. He was also diagnosed as a borderline autistic child at the age of 3 because he had shown at least 6 very prominent autistic traits/markers.

Plus, he has always been unable to understand and/or even portray his emotions other than the two majors "happy" or "mad" thier truly was no in between.

At the request of his grandmother, i have been giving him the Kyani Sunrise for about 6 weeks.

During this time we have all noticed some considerable differences with this little guy.

When he breathes, for the first time ever you no longer see his skin sinking inward at his chest and ribcage.

He, now, can tell me when he is scared, sad, mad, or surprised snd is clearly showing and understanding emotions. ALL of his autistic markers have either disappeared or decreased. And he has made great strides with potty training since he is now capable of understanding the feelings his body gives him and can distinguish what they mean and can now communicate that to me. His joints no longer snap and pop when I pick him up. He's an extremely active child and has always struggled with gaining weight....he has now started filling out and is becoming more solid verses the skin and bone appearance he has had for so long.

About 3 weeks ago, I started giving him some Nitro FX drops after his primary doctor

said it would not harm him. We will go back to cardiology in January and are praying that the Cardiologist looks at his sonograms and tells us he no longer needs surgery to open up his narrow aorta.

We are amazed at his progress in such a short time and cannot wait to see how he continues to respond to this product over the next few months.

Thank God for bringing Kyani into our lives

To celebrate the growth of Kyani world wide, Dr Qutab the Head of their Scientific, Advisory Board and the creator and formulator of Kyani's Triangle of Health, wrote a book entitled, 'Nitric Oxide, the molecule of life'. It was originally sold, but now he has decided to give it FREE as a DOWNLOAD through his website. It's www.drqutab.com Please download it, read it, distribute it and increase your knowledge about the molecule which has created health for millions of people. Use it as a sales tool to build health and wealth.

#NitricOxide #MoleculeofLife #GoKyani #ChangingLives #MoreHealthMoreWealth #1MillionLives

**NITRIC OXIDE**, Named Molecule of the Year by science magazine in 1998, nitric oxide helps maintain, defend, and repair every cell of the body. The fact that it is one of the most important molecules for human life is, without a doubt, one of the major discoveries of the 21<sup>st</sup> century. Nitric oxide may be a simple molecule, made up of one part nitrogen and one part oxygen, but scientists and researchers around the globe have been astonished by the seemingly limitless list of functions it has in the body.

Join Dr. Abbas Qutab, world-renowned medical researcher, as he discusses the many health benefits of nitric oxide, and how the Morinda citrifolia (noni) plant and this miracle molecule are linked. The result? An answer to health concerns that affect thousands of people around the world.

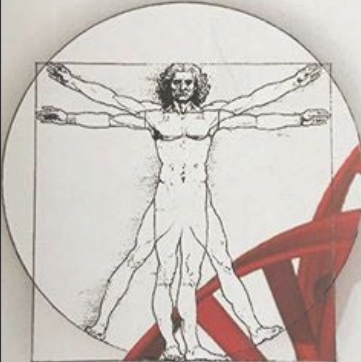

Abbas Qutab, M.D., Ph.D., holds degrees in medicine, oriental medicine, and chiropractic, and has a Ph.D. in Ayurvedic medicine. He is one of very few physicians in the United States who has been awarded an honorary Sc.D. from the World Health Organization Chartered University for his work in promoting alternative medicine. Dr. Qutab has taught thousands of physicians.

# Nitric Oxide

the molecule of life

## NITRO AND THE NITRIC OXIDE LI

by Abbas Qutab, M.D., Ph.D.

think of it this way... [Nitro Xtreme™] acts like fuel additives. Simply stated, you get better performance with the higher octane. Generating more nitric oxide you achieve peak performance.
