"NO disease, including CANCER, can exist in an alkaline environment (alkaline body)."Dr. Otto Warberg, 1931 Nobel Prize winner
 To restore your body's pH back to neutral (or about 7.4). A body with a neutral pH is a healthy body! If your pH is lower than 6.8 it becomes acidic. An acidic body is a place where sickness and disease can easily develop. Drinking plenty of Alkalized water will maintain the pH of our bodies. This neutral pH, prevents our immune system from malfunction or diseases to develop and keeps us strong and healthy!

You can have this at your tap for drinking, cleaning veggies, fruits, meats, no need for bottled water! RIGHT now this is over \$200.00 off! Let me know if you have any questions! To our health!

Vollara | Water Optimization
