

Kids with ADD, ADHD, and Autismand Shaklee

There is research that shows *Shaklee* Vitamins have helped children with ADD, ADHD, ASD and Many other disorders.

Our son, QW has **NOT** been diagnosed with autism or ADD or ADHD; however he has been diagnosed with *Autism Symptoms, delayed speech and multiple developmentally slow learning disabilities and other spectrum disorders.*

Update: As of Nov. 2012 - our son has now been diagnosed with PDD-NOS, dyslexia, dyscalculia, delayed speech and language, and inability to retain and recall info, along with multiple slow learning disabilities and disorders. He is receiving Special Ed, Speech Therapy, and Occupational Therapy .

We are doing an experiment with Shaklee supplements of our own (of course, with advice and guidance from an experienced herbalist that he sees every 3 months.)

We (*family, Sunday school teachers and many others included*) have seen a BIG improvement in QW since he has been on Shaklee (*even better improvement than when he was in therapy three days a week*). I'm sure he will improve even more as we keep adding to his daily Shaklee supplements. (*Right now, he can't swallow some vitamins and I haven't found 'the perfect food' to disguise them in yet!*)

We have also cut back on sweets, processed foods, MSG & additives. (*I could do better at this, I do it a little at a time.*) I do bake with alot of flax seed. We only buy farm raised grass fed beef (*it's so much better for you!*) This year we started raising our own grass fed beef. We also use our own fresh eggs and chicken, and I home can most of my own sauces, soups, veggies and fruit. Starting in Sept., we'll have fresh goats milk, and cheese too!

I only clean with *Shaklee "Get Clean" cleaners, dish soap, hand soap, disinfect, scour off & laundry, shampoo, conditioner, bath soap, toothpaste* etc. and that has made a big difference in our whole house and family.

As of now, QW is taking the following Shaklee Supplements:

- Chewable Vitamin C
- Optiflora –both prebiotic and probiotic
- Chewable Cal/Mag
- Chewable Multi Vitamin – Ocean Wonders
- Omega-guard
- Mental Acuity Plus
- Soy Protein – in protein bars – everyone loves them!
- Vitamin B Complex
- Zinc Complex

Some of QW's improvements we have noticed since using Shaklee:

- Not rubbing his head continuously
- Talking more clearly – not whining nearly as much
- Using more words and speaking complete sentences
- Memorizes short bible verses for Sunday school (*sometimes only the first few words are right - but it's an improvement!*)
- Will sit still for 5 -10 min. at a time
- Will answer questions in Sunday school about the lesson and has been winning quite a few quiet seat prizes!
- Will color and 'draw' pictures
- Can understand things better
- Is helping with small chores - feeding animals, picking up rooms, carrying dishes to the sink, putting away laundry, etc.
- Will sing a song by himself – also hums a tune when big sister plays the piano
- I'm sure that I am missing some things..... But, hopefully this will give you a little bit of an idea though! (He is still a very active little boy, but we see improvements everyday!)*

QW in Sunday School.... trying to follow along in his Bible!

We can't say enough about how great Shaklee products have been for our family! **You can read more of our story (about our fight with our daughter's health) and the reason why we want to share Shaklee with you here!** It amazes me how so many people keep using prescription meds or **reg. store synthetic vitamins** to treat health problems, yet year after year, they do not change for the better! **Drugs treat the symptoms (and cause others) Shaklee treats the cause!** This we have seen right in front of our eyes!

I will post some testimonies links below - please though, if you or others are interested, I ask that you leave a comment here, go through our website at <http://www.srkindred.myshaklee.com/> or our fb page www.facebook.com/srkindred with any questions or orders. Thank –you!
