### Xango

July 24, 2015

Hello Friends ! We are inviting everyone we know to learn about Xango, the medicinal fruit juice made from the mangosteen fruit. It has healing properties that can change your life! We would not represent something we have not tried. I was skeptical... all I can tell you is it works!! Better to drink 2 oz of juice than take ibuprofen all day for arthritis pain!

### Cheryl Wenger

How much is this juice and where do you purchase it and are there benefits other than people suffering with pain?

### Xango

Cheryl - click on the website under "about" and you will go to my page with information- tons of it. The juice is \$37.50 a bottle, which sounds expensive, but you only drink 4 - 6 oz a day
