

Looking *Good*, Feeling *Young* Perfectly Feeling *Great* as easy as 1, 2, 3

Before **3 Days** **5 Days** **10 Days** **15 Days**

"I used to have a lot of pimples and it usually took two weeks before they disappear leaving dark spots on my oily face. I resorted to using different kinds of soap that claim to whiten the face but I didn't see any improvement at all. I even used long pants and long sleeves to protect my skin from the sun hoping that it would lighten.

"The first time I used the soap, my skin felt tight and stretched. I noticed too that my facial skin was peeling and the rest of the skin in my body was cleansed well. In just five days of using the soap, my pimples gradually diminished faster than before and without leaving any dark spots! I felt smarting pain on my face at first, but that was gone after a few days.

"Enzacta soap helped me gain self-confidence. Now I can wear short pants and dresses. What's more, my friends noticed my skin got lighter, my pimples disappeared and many were even asking what I was using!

"It's worth the 250 pesos I spent to purchase it and all the effort! Compared to other soaps, it doesn't melt easily so I'm able to use it longer! Most important of all, it's really effective! I tell my friends, Enzacta soap is purely organic and it's effective in improving acne or pimple prone skin. It not only cleanses the skin, it also makes it soft, smooth, glowing and younger looking!"

- Princess Enoch

"I've just tried a sachet of Alfa PXP Plus and after only a few hours, I perspired a lot and coughed out phlegm. I felt relieved because of that. After two weeks, I became a member."

"I was asthmatic. My asthma attacks usually occurred between the hours of 3AM to 5AM. At the same time I was also aware that I frequently burped. The color of my urine was red-orange.

Enzacta's Network Development Coordinator, Neil Enino, advised me to try a sachet of Alfa PXP Plus when I wasn't well. A member, I tried it before dinner time and after only a few hours, about 3AM, I perspired a lot and coughed out phlegm. I felt relieved because of that. After two weeks, I became a member.

"I continuously take Alfa HFI and Alfa PXP Plus in the morning. Then Alfa PXP Royale in the evening. I also take Alfa Energy (it drops) in two liters of water every day. In just two days, I started taking these products, the pain in my stomach was gone, the color of my urine turned normal, burping and I'm no longer troubled by asthma. Now, nothing disturbs my good sleep. I'll have a medical check-up in two weeks and I'll let you know about the results in my next post."
