“Our pediatric patients love the taste and it decreases the number of doctor visits they need to have. Our older patients call it the “Fountain of Youth” because of the energy and sense of well being they experience when they take it. I myself have a bottle in my fridge at home and in the office and take a swig at least once a day. It’s a like “Wellness in a Bottle.” I love it.”

– **Dr. Howard Cohn, California**

“Genesis has not only given me healthy benefits – it has given me the opportunity to see my grandfather have more energy, it has lowered my father’s blood pressure and given my grandmother better memory with her **Alzheimer’s**...”

“I am working with a woman whose father has **cancer**. Two weeks ago, he was told he had four weeks left to live and would lose his ability to walk within two weeks. I started him on Genesis and for the first time since he was diagnosed two years ago, his hemoglobin rose from six to thirteen, and the doctor’s are puzzled as to how he is still walking just fine.”

– **Peri O’Connor, Michigan**

– **Jeff Trigger, Michigan**

“There is not anything like this anywhere! Whenever I was feeling a little **under the weather**, I would saturate my body with Genesis; I haven’t been sick at all! Thank you Genesis™ !”

“My uncle was very ill – almost at **death’s door**; the doctor’s had given up on him. As soon as he was allowed to use liquids, we started sneaking in Genesis.

Today he is still using it and moving around at 80 years. The priest at the church announced that his being able to attend church was a **miracle**.”
– **Marilyn Campbell, New York**
