

NHT Global's Premium Noni uses the finest, purest Noni harvested from the pristine Tahitian Noni ring on the island of Samoa. NHT Global's noni fruit is grown and harvested by a Samoan Chief and his family on an organic Noni plantation that has been in the Chief's family for centuries. Because of this unique characteristic, Premium Noni is the only noni juice with "Chief to Chief" quality.

Premium Noni is 100% all-natural containing zero preservatives and boasts one of the highest concentrations of noni in its formulation.

Not only does NHT Global use the finest quality Noni direct from the source, but NHT Global's unique blend of pineapple, white grape juice and Concord grape juice create the best tasting noni with a pleasing taste profile that even children will love. Premium Noni is the perfect combination of good health and great taste.

Premium Noni juice uses whole fruit technology - a technique of using the whole fruit to insure that none of the nutritional benefits of the plant are left out. Many of the compounds that are found in the seeds, leaves, and skin of fruits are used in modern medicines. For thousands of years people have benefited from the use of the whole fruit, using fewer filters, resulting in more pure goodness. Nowadays consumers are learning the importance of the inclusion of the whole fruit in the products they choose.

Premium Noni is also "Triple Charged" incorporating three forms of 100% organic noni - pure traditional noni juice, a potent noni extract and whole fruit sun-dried noni powder.

- Reconstituted Morinda Citrifolia fruit juice from Organic Noni Puree
- Noni Powder
- White Grape Juice Concentrate
- Concord Grape Juice Concentrate
- Pineapple Juice Puree
- Natural Flavors
- 100% Fruit Juice
- Contains no preservatives

NHT Premium Noni is also NASAA and IFOAM Certified.

Cancer - What the pharmaceutical companies don't want us to find out!

Long post, but interesting if you would like to find out more about what a cancer researcher (not a salesperson!!) is saying about Noni Juice cancer prevention and treatment.

TREATMENT RATING: While many people consider Noni Juice to be a primary cancer treatment, this Cancer Tutor website considers Noni Juice to be a primary cancer treatment only for newly diagnosed cancer patients. For advanced cancer patients this treatment is considered a highly recommended supplemental protocol!!! Noni Juice provides critical nutrients to the non-cancerous cells and will likely kill many cancer cells. But this website does not consider it strong enough to be a primary treatment for advanced cancer patients.

Chapter on Treatments Rated For Advanced Cancer Patients

How It Works

Like grape juice, Noni juice contains a whole slew of cancer fighting nutrients. It kills cancer cells (the anthraquinone damnacanthal and the trace element selenium), it stops the spread of cancer (beta sitosterol, noni-ppt and limonene), it stimulates the
