SoZo Testimonials.

OK This is why I love Sozo so much I have had colitis for about 3 years, I was taking the highest dose of Asacol that you can take 4800 MG a day. I was also taking a number of vitamins and supplements. Even taking all of those pills my colitis was still out of control, and basically my doctor told me that is colitis and deal with it. Also on top of the colitis I have to eat gluten-free foods and I have serve allergies that I was taking medicine for too. I was taking between 12 to 15 pills a day. My colitis medicine alone was \$901.00 a month.

After taking the Sozo on the go for 10 days I am off all the medicines . All of the pains in my stomach are gone ,I feel awesome. I can go out and do things with my children now. I have not felt like this in years . I have tried a number of other products that claim they can help and none did.

I will never stop taking Sozo.

- Jaime L....

"When I started drinking Sozo Coffeeberry and Ignite, I felt stronger. In fact, when we went to the Philippines for a medical and dental mission, I brought some with me. I shared them with my cousin, Beth. We have to get up at around 4am and sometimes have to travel quite distances to do our mission. It was a very hectic schedule, but with Sozo, we don't feel tired. Everytime I have headache because of the heat, above 90 degrees, I drank Sozo and it disappeared. Even when I have stomach ache, with Sozo, it was gone. When we run out of Sozo, Beth and I have stomach aches, we have to take over the counter medicines and it made us weak.

I got home from the Philippines and I was attacked by cramps, "Charley's horse" on my leg and toes. I thought it would never lasts but, Only upon drinking Sozo Ignite, did it went away!!!

Even with my asthma, very few attacks since I started drinking Sozo. Used to use my inhaler so many times a day, now, I hardly use it.

I thank God for sending Sozo to us !!!

Thank you very much, Monica for your great support for us !!! God bless you with grace and favors !!!"

- Angie

Last week my puppy was very sick so I took him to the vet to see what was wrong with him.

I was not happy with the news he gave me. My puppy had the parvovirus and most puppies do not survive that virus. He would not eat or drink and he was vomiting and was dehydrated. The vet gave me some IV's to keep him hydrated and I gave him small amounts of SoZo through out the day all weekend and to my surprise he pulled through it and is okay now. The vet was really surprised when I told him what I did. I am very thankful to Be in SoZo and to have product on hand to give my puppy. I believe it helped him to build his immune system back to help fight off the virus.

Thanks SoZo,

Chris S....
