DIABETES. DIABETES: Is a global epidemic - Although its not infectious and therefore cannot be passed from one person to the other but its incidence is increasing with each passing day. This is how excess of sugar from carbohydrate foods and too much of sugar intake wreck havoc on people's lives. Complications of Diabetes are: BLINDNESS, KIDNEY FAILURE, HEART-ATTACK, STROKE, IMPOTENCE and more. Protect yourself from the Gateway Disease called "DIABETES" with these GNLD tested & proven food supplements : Flavonoid Complex, Fibre Tablets, Beta Guard, and GR2 Control Appetite Reducer . For product order & business opportunity contact me on: 08025917075 or 08057101493. Cheers!
