JANTEK TRUST wish Mrs Josephine Nujoma a Happy Birthday and many more blessed years.

Jantek Trust

February 14, 2014

My family, friends and business partners....I hope you are all doing well. Many of you that are not business partners know that I am an Independent Distributor for a nutritional wellness company called XANGO. We have unique products containing the mangosteen fruit that began with our category created juice with the mangosteen ten years ago. After a substantial amount of reading and studying the benefits of our latest product called IGNITE, I felt the need to reach out to each of you as it is too exciting not to share with everyone I know. The more I study about what our product does, the more passionate I am about sharing it. As my Father suffered from a major stroke in 1983 and died in 1995 February 14 at the age of 61, my Mother has been weak since 1968 and lived for 44 years on medications until passed on 20 August 2013 at the age of 77 from what we came to know on 09 August 2013, Pancreatic - Liver - Cancer Metastasis - Stage IV, now I cannot help but wonder if there could have been a different outcome for her if we had known about the importance of producing Nitric Oxide (NO) in our bodies. While I will never know, I CAN share with others so they have enough information to seek out and ask questions for assuring better heart health for themselves today. While the discovery of what Nitric Oxide (NO) does for cardiovascular health I had, like so many others I talk with, no idea of the devastating consequences to our cardiovascular health when we do not produce NO in our bodies. Here are just a few excerpts from the training I am doing on IGNITE that has been developed to create the precious Nitric Oxide we all need for healthier hearts. As we get older our bodies no longer produce the NO we need for healthy blood flow which, in turn, can result in poor heart health. Here are some Nitric Oxide facts.:

Nitric oxide is a colorless, odorless gas that tells blood vessels to relax and to widen, in turn resulting in a lowering of blood pressure. Discoveries about nitric oxide that led to the development of the ED drug Viagra earned a Nobel Prize a decade ago.

There have been over 60,000 studies done on nitric oxide in the last 20 years and in 1998, The Nobel Prize for Medicine was given to three scientists that discovered the signaling role of nitric oxide.

Nitric oxide is a gas that's produced in the endothelial lining of every blood vessel in our bodies, including all the capillaries. Every cell of our body is only about one micron away from the lining of a blood vessel. Nitric oxide is the über neurotransmitter. It is the one that regulates all the other neurotransmitters and because it's a gas, it goes through the body instantly. So high nitric oxide levels will instantly change the

neurotransmitter levels of the brain and balance them out. NO is a vasodilator and allows our blood vessels to relax and open for blood flow.

We have 100,000 miles of blood vessels that run throughout our body! Your blood vessels are dynamic, living tissue just like any other organ in your body. And just like any other organ, they perform a vital function: controlling blood flow from one moment to the next. Every 60 seconds, your vessels are responsible for distributing five quarts of life-sustaining blood to your body. That is 5 quarts every minute; 1,800 gallons every day, a virtual river of life!

5. Nitric Oxide (NO) has been shown to be important in the following cellular activities:

- help memory and behavior by transmitting information between nerve cells in the brain
- assist the immune system at fighting off bacteria and defending against tumors
- regulate blood pressure by dilating arteries
- reduce inflammation
- improve sleep quality
- increase your recognition of scents (i.e. smell)
- increase endurance and strength
- assist in gastric motility

Although it's the stuff by which erectile dysfunction (ED) drugs work, it's not the only exclusive domain of men. (Indeed, one of the 1998 Nobel recipients, Ferid Murad, MD, co-wrote a book, *The WellnessSolution*, published in 2006, promoting a regimen of diet, exercise, vitamins, and antioxidants that works by increasing nitric oxide levels.) Performance is an issue for approximately 65% of men in America. If blood is not flowing, performance is not possible. Hence the reason for viagra. However, the burst of Nitric Oxide viagra provides for the body is very temporary and is not without consequences. Ignite provides time released NO in the system for better blood flow throughout the body continuously resulting in better heart health. Once we understand the significance of producing NO in our bodies, it is easy to realize that we were conceived in a burst of Nitric Oxide.

Studies show that smoking substantially lowers the Nitric Oxide levels in your system. Smoking is the number 1 PREVENTABLE DEATH in the country! If you smoke, love yourself and find a partner, or some type of support, to be accountable to and quit! Get your Nitric Oxide levels UP with IGNITE! Get your heart health UP! After awhile you will wonder why it took so long to be UP with your healthier heart

In addition to the air we breathe and the foods we eat, as we become adults Nitric Oxide is produced less in our bodies due to stress, anger, work, loneliness, disappointment, lack of exercise, sickness, smoking, financial concerns, relationships and many other factors. It is important that we have healthy blood flow throughout our bodies that can result in better heart health.

I look forward to hearing from you and answering any questions you may have in regards to IGNITE and how you can begin to receive it. If you are taking a product that produces Nitric Oxide I am excited for you. If not, please feel free to contact me. If you are a distributor and have not yet received this great new product...go online and order it! Additionally, if you are interested, you can create a strong additional source of revenue through simply concentrating on this one product alone. Or else, exploring the endless opportunities by clicking to all the Website Links provided below for an optimum Health, Wellness, Skin Care, Anti-Aging and man much more....

Like our juice, Ignite is a product with UNLIMITED POTENTIAL. You can go to MyMangosteenWebsite program below designed to inform and update. It focuses on simplicity with ranges of products offering POTENTIAL better heart health and UNLIMITED financial opportunity. We all know people that want to be proactive with their cardiovascular health. There are 90 Million adults already using ALTERNATIVE health products with sales of about \$85 Million dollars each year in the United States alone.

So what about Africa where health institutions are inadequate..? So it is high time to do something about our health, can we put price tag on our health, and do we wish to accomplish anything without our health..? Check out below:

The difference between extraordinarily wealthy people and those struggling to make ends meet is often just a matter of knowledge. And yet despite spending perhaps 12 years at school (and often more at University), most people have not learned how to become financially free - and hence the seemingly never-ending struggle. See:

<https://xalo.xango.com/me/12549502>

XANthones manGOsteen (XanGo) teaches you what you wish school had taught you - how to create streams of income that deposit money into your bank account in USA\$ weekly, monthly & quarterly whether you are working, playing, sleeping or on a 6-month cruise. Not only do we teach you the skills, we equip you with the strategies, tactics, and opportunities to achieve financial freedom in record time.
