Syndrome X - leads directly to heart disease, diabetes, stroke and premature death. It can stay hidden for years, pretending to be symptoms of other problems. It is estimated that up to 51% of the US population has Syndrome X.

But there is good news... (with Alfa PXP Forte)

Syndrome X is a nutritional disease caused by eating the incorrect foods and cured by eating the correct ones. Fresh fruits and vegetables along with antioxidant supplements helps to prevent or minimize the impact of Syndrome X.

While a cure doesn't come in one day, you will feel much better instantly by following 3 easy steps:

1. Eat meals rich in whole fresh foods like vegetables, fruits, whole sprouted grains and farm fresh meats
2. Get at least 30 minutes of exercise a day, even if it's not strenuous
3. Use Alfa PXP Forte daily for a super-boost of powerful antioxidant nutrition

Keep in mind: the more consistent you are, the sooner you'll feel fantastic!

Wonderful! I've used this product about a year ago and should have kept using it. With that said, I received the product quickly. Thank you.
