Vital HF- Humic acid treatment for viruses!

Humic acid treatment for viruses that are linked to:

Cancer	Influenza
Cold sores	Colds
Warts	Flu
West Niles	Herpes (even under stress)
Shingles	Hepatitis
HIV	Insect and rodent borne diseases
Yellow fever	Norwalk virus (cruise ship sickness)

Vital HF™ Recharges the Body

Humic extract deposits exist in areas where prehistoric vegetation was once abundant. These humic extracts (humic and fulvic acid) contain pure, preserved, prehistoric plant deposits found in approximately 77 trace elements and minerals. Because of poor soil management, most of our foods are completely lacking these important nutrients. Unfortunately, most people today are terribly deficient in the majority of these all-important electrolytes.

Vital HF can help increase your blood oxygen levels by supporting the red blood cells that carry vital oxygen throughout the body.

Supporting Good Health

Electrolytes act as miniature battery chargers, providing a constant trickle charge of electricity to living cells. Vital HF supports good health by providing the electrical energy needed to energize the body's cellular batteries. The product also helps to support viral regulators.

What's In It?

Vital HF contains 250mg (per tablet) of a combination of humic and fulvic acid. The humic acid in Vital HF is the only humic acid on the market today that has been taken through a proprietary process called "vital infusion inhibitors" that increases its over-all effectiveness.

VitalHF™

NATIONAL INSTITUTE OF HEALTH The prestigious National Institute of Health in Washington, D.C. concluded that humic acid, the main ingredient in Vital HF has both preventive and curative effects against a broad range of viruses.

Vital HF™(HUMUS NUTRIENTS) Humic extract deposits exist in areas where prehistoric vegetation was once abundant. These humic extracts (humic and fulvic acid) contain pure, preserved and prehistoric plant deposits which contain 77 trace minerals (electrolytes). Vital HF™ supports good health by providing the electrical energy needed to energize the body's cellular batteries. Besides helping to promote energy, Vital HF™ also helps to support viral regulators.

Read Dr. Howard Peiper's Book, *Live Disease Free*. For more information on the health benefits of humic acid and bioglycanates.

An old remedy from the soil resurfaces to help those who cannot access flu vaccines. Natural humic acid coats viruses and makes it more difficult for them to attach to healthy cells and multiply. It has shown to reduce viral counts in numerous patients with a variety of viral afflictions including hepatitis and HIV.

(PRWEB) November 5, 2004 – Viruses are extremely small organisms that can easily get inside cells. They are parasitic in that they enter healthy cells where they reside and feed off these cells. They raise their young within these cells to be spread to other cells inside and outside the body (through sneezing, excretion of body fluids, sexual transmission, etc.)

Viruses contain a receptor-binding protein that keeps them attached to the healthy cell. This protein encapsulates the virus and makes it resistant to attacks from the immune system. Humic acid is a nutrient from the soil that dilates a healthy cell and causes permeability so it can enter.

When humic acid finds a virus it coats it with a substance that not only prevents the virus from attaching to a healthy cell, but also sends a signal to the immune system alerting it of the invader. This kicks the immune system into action against the virus that has been laid vulnerable by this coating. As explained by Dr. Howard Peiper in the book, *"Live Disease Free"* (to be released in December, 2004) special processing by some supplement manufacturers creates a "viral infusion inhibitor" that prevents the virus from reproducing. Therefore, viral counts are reduced and the immune system is more successful in ridding the body of the virus before it can gain a foothold and create an illness.

Humic acid is selective and seems to know which cells are virus laden. It coats only those cells, leaving the healthy cells alone so the immune system will attack only the virus. Studies have shown no negative side effects when using humic acid.

The National Institute of Health in 2002 concluded that humic acids exhibit effects both as a preventive and a curative from a broad range of viruses. They also indicated that if taken before introduction of the virus, patients exhibited a strong prophylactic effect. As quoted from *Experientia*, 1972 28(5) by Klock and Sprossig, "Medical studies show that difficult respiratory illnesses common in children are readily resolved with humic acid dietary supplementation." With results like these humic acid would be a worthy addition to a dietary regime during the flu season.

Testimonials

For three years, I have been house bound due to Hepatitis C. Since taking Vital HF and Cellular Energy, I have reduced my viral load in just 60 days. I feel more energetic, can travel again and have recovered from the side effects of past medications. Thanks for giving me my life back.
Cass Somson, Utah

I have suffered from a right hand central nervous system tremor for over 35 yrs. After taking Cellular Energy for 30 days, I can now hold a glass of water without spilling it and able to write my name more clearly. Thank You Conklin, We Wade, MO
