I have magic tea. My tea burns 80 calories while I sit, enjoying this cup. Also, I have incredible energy and it is a natural diuretic, loaded with antioxidants to go after the bad guys in my body. It also has hibiscus which significantly lowers blood pressure. I told you that I have magic tea. Want some too? Herbalife products are not intended to diagnose, treat, cure or prevent any disease. However, when the body is getting complete nutrition at the cellular level amazing results can occur!
