

Testimonial

from one of Dottie Kemper's customers

Nina C. reports: Do you ever have those days when you feel run down, tired, blah ... you just want to go from the bed to the couch and do nothing at all? ME TOO! I have a busy, busy schedule, seven days a week (operating an opry in Texas with her husband), so those days were really hard to deal with! My friend, Wanda, introduced me to Microhydrin. She saw me one day, and knowing that I had a couple of really full days ahead of me, she told me about Microhydrin and gave me a couple capsules to try. She explained that it would give me the energy I needed without the nervous, edgy feeling. She was absolutely right – I take a couple of capsules in the morning and I'm ready for the day ahead! I love it because it is natural and I don't have to worry about it harming me in any way. Thank you Wanda!

I've had tendinitis in my right elbow for the last eight months. Nothing seemed to help. I told a good friend of mine about it and he recommended a product called Stem-Kine. After taking Stem-

Kine for a few weeks I noticed the pain in my elbow was gone. "Sweetness" was reaching out and grabbing something without any pain.

My name is Drew Waters and I'm a believer in Stem-Kine.

Who is Drew? He is a star of film, TV and print media.

Among the TV shows he has appeared on are the award winning *Friday Night Lights*, *Breaking Bad*, *Chase*, and *Inspector Mom* where he co-starred with the actor who played Winnie Palmer on the *Wonder Years*.

He has appeared on the big screen with stars such as Katie Holmes in *Mad Money* and Cuba Gooding in *Hit List*. He had the lead in *Breaking the Press* and supporting roles in more than a dozen other films.

Before taking up acting he was a model appearing on the cover of *Men's Fitness* three different times and traveling the world extensively for photographic shoots.

He recently completed shooting a western, *Redemption*, and a family drama, *Rheagan*. He has the starring roles in both movies. Drew has been working with *Wish For Our Heroes* in granting wishes to deserving veterans at Walter Reed Hospital, Ft. Bragg and Camp Lejeune.
