Child with #ADHD Improves with Negative Ion Clothes!

The picture below is provided by Tsai Yawen AM+ of Taiwan Nefful. Yawen invested in the full set for all 4 of her family members, as you can see in the picture.

Yawen's son has anxiety issues due to Attention Deficit Hyperactivity Disorder (ADHD). He had been taking medicines, which caused many side-effects including lack of appetite and sleep. Yawen was very worried. So when she learned about Nefful through Connie AGM, she immediately invested in the full set.

After using Nefful for one night, Yawen's son could stop taking his sleeping pills. Six months later, the doctors said he could stop all medicines for ADHD!

Before using Nefful products, Yawen's son used to bite his nails because of anxiety. On Mother's Day
