

## **"Mental relaxation"**

Robert & Kathryn Schuster | TACOMA, WA

*"Luminex has increased my ability to relax and not worry and not be so emotionally imbalanced! I have felt that this product has improved my life for the better. Love it!"*

## **"Life Changing Medicine"**

Aron L Griffith | CHESAPEAKE, VA

*"Greetings New Friends, I have been taking Luminex for almost a year. I grew up in a situation that promoted high anxiety which transferred over into my adulthood. I was scared in big crowds, had digestive issues at a young age, and was anxious over little things. I was not 100% happy or satisfied with life. My husband's family member told us about Melaleuca and we started purchasing monthly products from this wonderful company. It was suggested to us that we try Luminex and taking this organic medicine has changed our lives for the better. Some people take anti-depressants but Luminex is organic with no side effects (that we have experienced). My husband and I take Luminex a few times a day along with RestEZ at night and life is more enjoyable for our family. I am less anxious in the majority of situations, worry much less than prior to taking Luminex, and am able to cope with challenges better. I know that when I don't take Luminex my day is totally different. My husband and I are so truly thankful for this company, Melaleuca. We buy organic cleaning products, bathroom items such as toothpaste and shampoo, and sometimes their food products which are absolutely amazing. Life is short and our goal is to invest in products that will give our family a healthier lifestyle. And with Melaleuca which have found our solution to a healthier, happier life for our family. It is truly worth the investment. Thanks so much!"*
