Life-changing products!

I've been a Melaleuca customer since 1998. All the products are great.....we can't live without the Gold Bar, Melapower for our laundry, and tooth polish. One of my favorite products that is no longer made is the original Hand Creme. I hope the company will consider bringing that back some day it is exquisite! I even used it for face cream.

As a marketing executive I bought a large "Career Pack" when I first enrolled. After several months, I thought I might as well use the Provex CV even though I was a young gal and no heart problems (knock wood). I had been suffering with arthritis and carpal tunnel syndrome in my wrists which was so bad that I could not even lift a pot from the stove, my wrists were so painful. To my surprise and delight, after just a few days of using Provex CV my arthritic pains and my carpal tunnel problems eased and no longer bother me even now, 13 years later!

We also can't live without the Diamond Brite dishwashing gel...nothing else cleans the dishes and we don't have that horrible chlorine smell that used to permeate the house when we used other commercial dishwashing products. Thank you Melaleuca, your products are the best ever. I attended convention twice and am proud to be a director.
