Since becoming injured in a automobile accident a few years ago, I have suffered from a variety of health problems which no traditional treatments have been able to alleviate. Then my brother told me about Lifestyles products. After two months I finally agreed to try intra and felt my energy level rise right away. Within a week I had noticed a significant difference in how I was feeling. I was shocked and elated at the same time! I have finally found a product that works and is healthy for you. I am so grateful to my brother for telling me about Lifestyles and giving me back my gift of health. I will continue taking Lifestyles products for the rest of my life!" Debbie Wilberscheid, USA

"I quit my job in research 2 years ago tomorrow. My health couldn't take it anymore. The last 2 years I suffered from chronic sinus problems. I have suffered all my life, by my health was so low. My head felt like it was in a vice; I couldn't get up. I was on a special diet. I was taking vitamins pills and doing everything I could., but I was too depressed to get out of the door and even look for work.

I was on Intra 2 weeks and the first week I actually got sicker, because my head started to drain. One night, I stayed awake all night. I was afraid I would drown; my head started to drain.

After the first week, on the phone, my friend said 'you sound different, and you sound clearer'.

I'm just totally amazed at what this product has done for me in 3 weeks. My head's still draining. I get clearer and everyday is a new and better day for me. I'm so excited about this product.
