Important Share... Autism Spectrum Disorder. Jaimee England-Riddell's shares what Juice Plus has done for her son.

Within 3 weeks of starting on the fruit and veg we realized he had finally slept a full night, his night terrors had stopped, and his behavior had calmed right down and his meltdowns were less frequent.

We did think maybe its just because he was getting older until one day we ran out... and within a week everything went back to how it was before.

Night terrors, mood swings, lashing out, you name it. Ordered some more and within a week or 2 he was chilled again.

I get his fruit and veg chews free with mine but as I have 3 young children they all on them so placed an order just for him and this time ordered him the premium chewables. Hes never had the berries before and is so excited bless him.

There is no 'cure ' for what he goes through bless him but since introducing the phytonutrients of 17 varieties of fruit and veg (30 varieties with his premium chews) daily into his life we have seen a massive massive difference. Hes happier which makes us all happier.

Sorry it was long but just wanted to share this with you all. Thanks for taking the time to read xx
