## About me

I am the youngest of three children. My two older twin brothers are deaf. I love Belly dancing and love to read and write. I hope to one day write and publish my own book and to get more involved with the deaf community as it has been a big part of my life. It teaches you how to love and care for people.

## My Story

I was diagnosed with an auto-immune disorder called Graves' a.k.a. hyperthyroidism at 7 years old and I had over 30 different symptoms with this illness alone. My main problems include ADHD, tiredness, fatigue, maintaining weight, headaches, enlarged goiter, high blood pressure, nose bleeds every day, and heart problems. At the age of ten, my uncle sat me down and introduced me to Noni. At first, it was bitter but I felt better so I continued to drink TNJ. After about three months of drinking TNJ, I had a healthier cardiovascular system. My blood pressure is maintained and the doctor took me off all 7 medications. I love Morinda products because they work on multiple health issues, not just one. I am forever grateful and blessed to have come across this product at a young age and that everyone can use it because it works! I cannot wait to see what is the next big thing that the company will come out with!
