Crohn's Disease series of experiences

I have read a few testimonials on Crohn's Disease and have decided to share my own story...maybe it can help others... My name is Anne and I was diagnosed with Crohn's Disease in 1984. At that time I was 26 and now many painful years have gone by and I am 44. So for about 17 years I have had to deal with chronic pain, nausea, diarrhea, three surgeries (resections), and a regimen of medications to cope with the disease. This past April 2001 my disease progressed and now I have fistulas. If you don't know what they are, it's where my Crohn's tunneled its way from my large intestine outside my body. The last medication I was on (until August 2001) was Ramacade without much success.

My doctor wanted me to have an Ileostomy (another surgery)!! After a lot of praying I told my doctor that I was going to try something first - that something was **Melaleuca's Daily 4 Life** (and **Mela Gel** for my Fiarulous). I can't tell you how this has changed my life!! It's given my family and I back our lives. I started taking Daily 4 Life and using Mela gel on my fistulas in Aug 2001.

I was in for a check-up with my Dr. at Rochester Mayo in Nov. 2001 and he was really impressed by my vast improvement: my Blood work; my scope (which only showed one small lesion). I have not felt so well since before I was diagnosed with Crohn's 17 years ago. My doctor asked for all the info from Melaleuca on what I was taking. Melaleuca has touched my life and I am now sharing with others.

I want to thank Don & Sue Gemmell for introducing me to Melaleuca!! I can't tell you how much wellness is in our lives now. I am sharing Melaleuca with everyone I can - more than anything, I love helping others. Thank you for letting me share. Let me know if I can help or answer any questions.
Stay well...God Bless, Anne

Another story - testimonial

If you know anyone with Crohn's you are doing them a disservice by not letting them know about Melaleuca. Years ago in Chicago we had a young man battling this and he was so bad he was in a wheel chair. He kept telling me Melaleuca was making him better. He went from a wheel chair to walker to walking alone and claimed Melaleuca cured him. I kept telling him I didn't think that was possible; but it obviously helped. He eventually did have another attack but it was small and he was well within days.

I have been with Melaleuca now for a little over a year and a half. A few months after I joined, my husband was diagnosed with SEVERE Crohn's disease and was hospitalized. For those of you that do not know, Crohn's is

passed on through genetics. My husband's brother has it too, but not severe. A Crohn's patient will in fact have this for the rest of his/her life - but how it will affect them depends if they can get it under control and keep it under control. With Crohn's, if your intestines stay ulcerated, it can lead to cancer, so many times sections of the intestine are removed.

Crohn's disease also causes a low immune system, irregular absorption of nutrients, and can lead to blindness to mention a few things.

When he first was put on the med's, they seemed to have things a bit under control. But after a few months, things started up again - the pain, the bleeding, the exhaustion.

They did many scopings, and tried MANY different meds over the next months to follow. About four months ago, the doctors were at the point of looking at surgery and having that section of his intestine removed. My husband and I both sat down and talked, and realized NONE of the meds he was taking were doing anything; and actually, seemed to be making him worse! We both agreed we had nothing to lose, so we took him off the steroids, med's, etc. and put him on the **Melaleuca Daily 4 Life!** He was on approx. 2 months when we went in for the scoping.

HE IS IN COMPLETE REMISSION!!! His intestines are healed over! NO ULCERATIONS! Melaleuca and the Daily 4 Life truly have given us our lives back! We are both on the Daily 4 Life now, and both will be for the rest of our lives! I am even ordering a bunch of Daily 4 Life packs and handing it out as presents for my family and his! What better present to give someone than better health! If anyone ever doubts the powers of our Daily 4 Life line, feel free to call me or email me! I will put those doubts aside!

--Micki Streeter

Just wanted to share some exciting news with you! As you know, since I enrolled with Melaleuca in November, I have seen a considerable change in my health. I am going into my fifth year of having ulcerative colitis and possibly Crohn's disease. The reason I say possibly is because my rheumatologist feels this is the disease I have based on all my symptoms, yet I don't test positive for it right now.

Since I started taking the **Vitality Pack, Cell-Wise, Replenex, Provex Plus** and **FiberWise**, I have seen my arthritic problems and energy level change drastically. I do not have to take naps in the afternoon, I am not fatigued, I am able to blow dry my hair without problems, I don't have severe abdominal cramps and I am able to walk up and down stairs. Plus, my mouth ulcers have not reappeared!

I visited my rheumatologist today for the first time since I started with Melaleuca. He was very happy to hear how great I was feeling. After I told him I was not taking Asacol or anti-inflammatory anymore, I explained to him what I was doing differently. As soon as I asked him if he had heard of Melaleuca's vitamins, he answered with an emphatic "Yes, I have other patients who have done well with their vitamins." He asked to look at the bottles and reviewed everything I was taking. He was very pleased with the Glucosamine, calcium and grape seed and grape skin extract in the vitamins. He did point out for me to be careful of a flare up when I get a virus or am under a lot of stress. I informed him that I just recently had pneumonia and did not experience any flare ups or problems.

He was VERY impressed! He suggested continuing my daily regimen and wished he had more patients who felt as good as I do.

I can honestly say that without Melaleuca's vitamins and other great products, I know I would not be feeling this great! I thank God every day for bringing you and Terry into my life because you have opened up the door health wise and wealth wise for me and my family. Thanks for all you do!
-- Becci Carlson :)

Before starting on the Melaleuca supplements, I had severe Fibromyalgia pain and along with that . . . what I believed was colitis or Irritable Bowel Syndrome. I was never formally diagnosed with colitis or IBS, but most definitely Fibromyalgia and I had read that IBS was typically related to Fibromyalgia and my symptoms sure fit the IBS & colitis descriptions when I did the research on them. I also had symptoms of Chronic Fatigue Syndrome but was never formally diagnosed.

At any rate, I was in so much pain every night that John had to give me therapeutic massages but my sleep patterns were extremely poor as well, because of waking up at night in pain. I had always refused to take prescription pain meds because of the side effects.

Well, along comes my daughter, Kelly, who introduced John and me to Melaleuca. I didn't think anything would

help me. But, basically to make a long story short, I began seeing improvements in my health within a few months. John and I enrolled in Nov. '01 and I would say that since the middle of 2002, I have been symptom-free of all my pain, uncontrollable bowels and fatigue symptoms.

I take the **Daily for Life, Luminex, FiberWise drink** (every morning as breakfast with **Attain shake**) and **EstrAval**. I also take **RestEZ** every night about an hour before bed. I am also taking **Phytomega** since it came out at convention last year and I am wanting to get my cholesterol checked, just haven't done it yet. (I had it taken at convention before I started taking the Phytomega.) Melaleuca has changed my life in many ways, but most importantly . . . I feel GREAT now!

As a side note: On 2/3/04 I took a fitness profile test at Lifetime Fitness Center which John and I just joined, and even though I was told my "chronological age" is 51, my "Body Age" is 42! WOW! They said my "obtainable body age" on a good fitness program could be as low as 35! Kelly is 34. Isn't that something? I still need to lose about 20 lbs. to be my ideal weight, but I have already lost 36 lbs. since starting on Melaleuca weight control products.

Superb blog! Do you have any hints for aspiring writers? I'm planning to start my own website soon but I'm a little lost on everything. Would you recommend starting with a free platform like Wordpress or go for a paid option? There are so many choices out there that I'm completely overwhelmed .. Any recommendations? Thank you!
