About me

I live a life full of inspiration powered by Love! I currently teach wakeboarding and I wakeboard competitive too. I also incorporate my 2 loves, wakeboarding and Morinda's supplements, as part of a personal development program - The AGEless Lifestyle.

My Story

Before I wake boarded, my lifestyle consisted of going to work on the weekdays from about 9am to 6pm. And weekends were spent partying, often all night long. I started to suffer the repercussions of not caring for myself. I was always in pain from the use of my body and the crashes I had to endure. I was diagnosed with a heart murmur and an overactive bladder. I could feel I was weak. I realized that if I wanted to be the best wake boarder I could be, I needed to be stronger. I started to research on super foods, super fruits, and healthy diets. I wanted to supplement my diet as naturally as possible. One of my friends who was also looking into improving his diet had been trying all these fads was giving me feedback. He had told me about Tahitian Noni Juice and said that it was very good and that I should try it. We went one day to an organic farm tour. As the owner showed us the different plants, we came to a Noni tree and she said, "... Some believe this fruit to be the elixir of youth." And I thought, "Hmm.. What if it is?" So, I decided to try drinking Tahitian Noni Juice. 2 weeks into drinking TNJ, I woke up one day at 8am, which was unusual. It was too early, I thought so I tried to go back to sleep but couldn't. I got out of bed and felt refreshed. I had, not in my memory woken up feeling so

I got out of bed and felt refreshed. I had, not in my memory woken up feeling so fresh ever at 8am. My boyfriend said he was starting to feel refreshed when he woke. At 6 months into drinking TNJ, I asked my boyfriend his thoughts on the juice. He said he felt less stress. That was amazing. Because I felt the same way! We were arguing less and the mind didn't linger on negative thoughts. I found this very interesting. Even more so when my mother who was suffering a bout of depression when she retired said her mind felt better after drinking TrūAge Max. Today, I have never felt stronger. I am in the best shape of my life thanks to TrūAge Max. I give full credit to this wondrous juice for nourishing my body so that it is strong to carry me through my extreme lifestyle. If it can help me in this way, I believe it can help you too, in whichever way you choose to live your lifestyle.
