Welcome and thank you for visiting my NYR website! I'm excited to tell you about Neal's Yard Remedies and what it has done for me and my family.

I am the wife of a wonderful man and the Mother of three amazing children. I am reminded daily of how very blessed I am and what a mighty God I serve.

Growing up in a household full of girls, my Mother taught us at an early age to care for our skin. It wasn't until recent years that I learned about the lack of restrictions and regulations on the skin products I was using. I didn't realize the amount of toxins and parabens I was applying directly to my skin through my moisturizers and makeup. The information was frightening! Especially, when you consider that 60% of what we put on our skin (our body's largest organ) is immediately absorbed into our bloodstream. Have I gotten your attention yet? It definitely got mine!

I was introduced to NYR Organic Skincare and immediately fell in love with products. I saw almost instantaneous results after I began using NYR. My skin was moisturized and I began to see the fine lines, age spots, and years of sun damage disappear.

I was completely sold on the product when I saw what it did for my daughter. Head to toe improvement. Literally! My daughter is 24 years old and was born with eczema and still struggles with it daily. As a mother, it breaks my heart to see her suffer with painful and itchy skin. I tried many treatments to help her, again applying parabens and toxins directly on her skin. She has fallen in love with NYR and has finally found a treatment that works effectively, clearing up her eczema and moisturizing her dry skin.

Reality hit home for me when I had several suspicious skin lesions biopsied. One came back positive for cancer and was successfully removed. This brought to my attention, yet again, the importance of knowing what I am applying on my skin and the possible harmful effects of the product. I am now faithful to see my dermatologist on a regular basis but more importantly aware of the products that I am using on my skin. Research and studies have proven that toxins and parabens can cause cancer, which is just another reason why I love NYR.

NYR Organic has something to for everyone in your family. It gives me great peace of mind knowing that the products my family and friends are using are safe and toxin free. If you would have told me a year ago that I would be involved in direct sales of an organic product, I would have laughed. But today I am excited and encouraged by this awesome product and I want to tell everyone about it.

Please contact me if you have any questions, would like to make a purchase or possibly host a party. Hosting a party is a great way to receive FREE products! If you are interested in starting your own NYR business, I would love to talk with you about the company. Please contact me at [www.mearsorganic.com](http://www.mearsorganic.com).

I look forward to chatting with you soon!
