I'm a Mom, Group Leader and CPA. When I contacted a child hood friend of mine to buy Organic Tea I was surprised to learn she was a founder of the US division of a 33 year old UK family owned company called Neal's Yard Remedies Organic. I'd never given much thought to skincare, synthetic chemicals, carcinogens, parabens. I assumed they were not in my products...

By the time I got off the phone, I couldn't take a shower! What was I putting on my families skin? I did research. I started thinking about the kids allergies, eczema, anxiety... Could these chemicals be causing them? I knew it was worth eliminating them to see if it helped.

My husband's chronic back and neck pain was relieved. (Arnica Salve).
My daughter's eczema was alleviated (Wild Rose Beauty Balm).
My teenage daughter's acne, allergies & anxiety all but disappeared. (Essential Oil) Passion took over and I had to share these products!

I have over 200 women on our growing NYROrganic team. Join me for our journey?
