

How I Solved My Debilitating FIBROMYALGIA Agony with Earth's Natural Magnetic Energy.

May 13, 2014

Why are so many people suffering with Deep Tissue Nerve Pain Fibromyalgia?

The term fibromyalgia describes a set of symptoms -- including chronic widespread pain, increased sensitivity to pressure, and fatigue -- that is believed to affect 1 to 5 percent of individuals in Western countries, more frequently women. While a diagnosis of fibromyalgia has been recognized by the National Institutes of Health and the American College of Rheumatology, its biologic basis has remained unknown. Fibromyalgia shares many symptoms with SFPN, a recognized cause of chronic widespread pain for which there are accepted, objective tests.

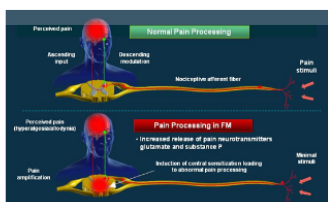

WHAT IS PAIN?

Pain is your body's way of telling you something is wrong. Imagine, for example, stepping on a tack. Your nerves send pain signals to your brain. This pain is a "protective" form of pain. It warns you to take action (or stop what you are doing) because an injury has occurred.

That kind of pain is easy to understand. But what explains the pain and other symptoms of a person with fibromyalgia? For example, why are people with fibromyalgia sometimes more sensitive to things such as temperature and sound? This question is puzzling because there seems to be no injury.

Researchers are not yet certain of the answer. But many believe that the pain of fibromyalgia comes from "central sensitization." This means that the problem might be a result of overactive nerves in the central nervous system (CNS) which can cause a more intense response to pain.

The CNS is made up of the brain, the spinal cord and the nerves that control physical activities. For fibromyalgia patients, this possible problem in the central nervous system may lead to a greater sensitivity to pain. It's almost as if the "volume control" for pain is turned way up.

WHY FIBROMYALGIA PAIN IS DIFFERENT FROM SOME OTHER COMMON PAIN CONDITIONS

The idea that overactive nerves cause the muscle pain of fibromyalgia is different from scientists' understanding of many other common pain conditions. For example, the pain of rheumatoid arthritis comes from inflammation. (This is an immune system response to infection, irritation, or other injury.) But early studies showed that inflammation does not appear to be the problem with fibromyalgia. So researchers searched for other answers.

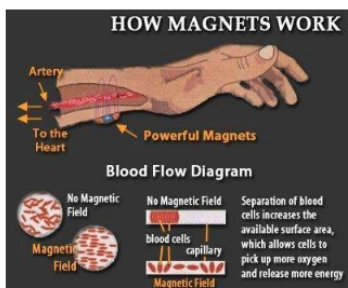

So How did I solve my deep tissue nerve pain that I suffered with needlessly with of over 6 years?

Think of both Fibromyalgia and Chronic Fatigue Syndrome as "ENERGY CRISIS" disorders. The goal of therapy is to return "energy" to the tissues so that the organs can function properly.

In that scenario, you have to chase down everything that is either stealing energy from the tissues, preventing energy from getting to the tissues or preventing the production of the energy molecules.

That is why Earth's Natural Magnetic Energy works so well with these conditions.

Magnetics increase blood circulation and decrease inflammation. Nikken Magnetic Technology's Are Inspired By And Designed To Duplicate Nature's Principles..

NIKKEN Magnetic Technologies saved my life...

The answer to AGONIES is very simple.... MAGNETS !

Preparatory Magnetic Technologies help take away Agony and your hurting.

But NOT ALL magnets work....

PEOPLE HAVE BEEN USING MAGNETS FOR THOUSANDS OF YEARS....
Biomagnetism is harmless and gives us the natural magnetism which all life depends

Nobel Peace Prize Winner Laureate Linus Pauling discovered that each red blood cell has a charged iron atom and that the blood is paramagnetic. He showed that if exposed biomagnetism occurs a positive change that leads to blood flow, flows more freely: • circulation improves • cells get more oxygen • cells get more nutrition • waste products are cleared out faster • muscles relax • pH level normalized • blood pressure normalized • immune system improved. .thus helps bio-magnetism in the body to come into balance.

Our cells are small chemical plants, they normally operate at a temperature of about 37 degrees. In many disease symptoms maybe fever, the elevated temperature helps the body to fight the disease state.

A magnetic field has the same effect without raising the body temperature. During normal body temperature is around 50% of the water molecules in the blood related to pass into each other.

Strong magnets increase the ability of blood to take up oxygen, water molecules found in the blood decays normally when they are moving fast enough through a strong magnetic field, the number of free molecules is doubled in this way.

A powerful magnet increases the blood's ability to absorb oxygen. An elevated level of oxygen both improves human condition and performance as it improves the ability to resist various disease infestation.

There are good magnets that help your body...

Your body is one big Magnet.

Every atom in your body has a positive and negative proton and neutron travelling around an axis...

Well my friend that's a magnet.

Your nerve endings operate at 70 mv normally ,when damage is inflicted or you have inflammation to an area the voltage goes down to around 55mv ,that allows the agony signal to travel to the brain and tell it you have pain.

When you place a Nikken Preparatory Magnet on the spot it brings the voltage back up to 70mv and stops the Agony!
It also increase blood flow to the spot while decreasing inflammation allowing tour body to mend it's self Naturally .

If this Technology did not work or was harmful this company would not be in business for OVER 39 years , and in 38 Countries worldwide , have 40 MILLION Happy Customers and be the LARGEST TOTAL WELLNESS COMPANY on earth!
This Technology saved my life!

I am Agony free and Pain pill free because of it.

So which Nikken Preparatory Magnetic Technology is the best for Fibromyalgia Agony?

Kenko™ Sleep System

Few things can make you feel better than a good night's sleep. And few things have as powerful an influence on our lives and health. Sleep restores and recharges us, keeps us healthy, and can even affect medical conditions such as diabetes and weight gain. Fortunately, Nikken has developed advanced sleep technology that helps you stay healthy and get the rest you need.

The Kenko™ Sleep System is scientifically designed for better sleep. Innovations including Nikken RAM™ (radial-axis magnetism) Technology, a massage-effect surface, natural temperature regulation and more, provide you with an extraordinary sleep experience.

Most people are sleeping on the very thing that is making them so very ill.

I do believe the increase of Autoimmune Disease , ADHD, Autism, Various forms of Cancer, FIBROMYALGIA , Chronic Fatigue Syndrome , Osteoarthritis , Lymphatic Issues ,Most Lung Disease, Hormonal Dysfunction, Endocrine Problems are caused by toxic chemicals in your MATTRESS and BPA Plastics that are in can goods and water bottles and Aspartame in foods.!

"YOUR" Bed Mattress is made from Dangerous Toxic Chemicals from OIL !

And deadly flame retardants and insecticides SPRAYED on them.

Harmful deadly chemicals leach out and out gas while your sleeping on it.

Toxic Chemicals in "YOUR" Mattress are KILLING you..

Two of my friends also HAD Fibromyalgia , please read how this Miraculous Technology saved there LIVES!

All you have to do is TRY this Technology and see if it can work for you , If you want to be AGONY FREE ! NO DRUGS and All Natural Solution's ! With NO SIDE EFFECTS because it works with Your Bodies Same Magnetic Energy!

These are two letters from my friend Lisa and Rhonda , please read! And feel free to contact them!

Rosie,

Attached is a short version of my "story" .

I did first begin with the back flex (flexible pad) that I used for my lower back and the sleep system. Magnetics were all that Nikken had at that time. I used the magboys, magnetic massager for my neck, arms, and legs. As you read, in six weeks, I was free from pain!

The far-infrared technology in the comforter and wraps are very soothing and also helps to detoxify. When the necklace was introduced, it really made a difference in my whole neck and shoulder area The nutritionals really helped me with inflammation and nerve sensitivity, especially "joint" and liver support . "Joint and Liver" were working on the root cause of my fibromyalgia, arthritis, and degenerative disc problems. Nikken's safe, filtered, energized, alkaline "Aqua Pour" water keeps my body well hydrated and more ph balanced. This component is vital to maintain health and minimize acid in or bodies.

I have added other whole foods nutritionals like Immunity, Mental Clarity and the Osteodenx Bone Health Pack. This "pack," not only grows new bone, but also directs nutrients to specific areas where they are most needed. This "bio-replenishment " process will benefit my entire body for decades to come!

Through the Nikken technologies, I have created a wellness environment (also including air purification systems) in my home and in my body. By doing this, I am not only helping myself, but my entire family.

Rose, Please call me if you have any further questions or if you would like to me to speak with anyone who has any of these health concerns. These are truly (life-changing) natural solutions that make a difference quality of life every day!

Yours in better health,

Lisa Pfau

Rosie,

For at least 6 years I suffered with severe pain from Fibromyalgia. I also suffered with a disc degenerative disease, kidney stones, gall stones and 3 herniated discs.

On a scale of 1 through 10, 10 being the worse as far as hurting I ran about an 8 all the time.

I was on numerous medications such as Elavil, Ambien, Vicodine, Flexoral.....and some others. Nothing seemed to work. I was to the point where my quality of life really was negligible and I was about to leave the work force because I just couldn't function any more. I was no longer the spouse, mother or friend that I had always been and still wanted to be.

I had a client with similar challenges that I witnessed go through an amazing recovery. On inquiry, I found she had discovered this company called Nikken. When I found out what she had done, she had gotten her Professional Pack, I did the same. It was truly amazing to me. I drank the water, slept on the bed, used everything that came in the pack.

Within 30 days I was off all my medication and I didn't hurt anymore. That was something traditional medicine couldn't do in over 6 years. 30 DAYS!!!! WOW!!!!

I literally had my life back. I was once again the wife, the mom, the friend I had always been and so much more. I can stress enough, having gone through what I went through, that we do have choices. There are things out there people need to know about. You really don't have to hurt if you don't want to...

Thank You

Rhonda.
