Hemorrhoids Gone

[Thank you Dr McCullough for passing this on to us.](#)

I have to commend Donna for her willingness to share this personal experience involving hemorrhoids and Melaleuca products. She explained that it took her over four years to get the nerve to write her experience. Personally, I have experienced great relief with hemorrhoids and MelaGel. I know that there are many of you who are presently experiencing similar problems and most likely don't want to admit it. I am very confident that Donna's experience will benefit many people.

Michael McCullough, DC

Executive Director II

Hemorrhoid experience

November 11, 2008

With IBS (irritable bowel syndrome) comes many effects, including hemorrhoids. I had them soooooo bad that I couldn't sit, stand, walk, bend, or even lay down. I used 3 tubes of preparation H and it did nothing. My dad told me to use something with an analgesic in it. So I went to the pharmacy and he recommended Anusol. Well, I used 11 tubes of that stuff, and couldn't get rid of the pain. I could not bend to sit in my car, so I walked like a penguin to the CLSC. They gave me Foot's Ointment. The same cream they prescribe to women after childbirth when they have bad hemorrhoids. I used the whole jar...still no results. My friend was a surgical nurse at the Anna Laberge Hospital . She got me in asap to see the surgeon. During his very painful examination, he told me that one of te 3 hemorrhoids was thrombosed. They couldn't cut them out, I could bleed to death. He prescribed some cream (don't remember the name)..but told me that no doubt, this would work. Well, it didn't.

I had just started with Melaleuca (about a month or so), and I called their product info line. I explained the story..and she asked if I had Sol-U-Mel at home. I said "The cleaning product?" She said, yes, "Do you have some on hand"? I said yes. She told me to put 1/4 cup in my bath water and soak in it morning and night for the next 7 days. I though this was crazy, but tried it anyway.

That night, I had my 1st bath with 1/4 cup Sol-U-Mel. Not much of a difference was felt, but I DID have a "bit" of relief. The next morning, I did the same thing, and ahhhhhh a few hours later I could actually sit. But it was still painful. That night was my 3rd bath, and ohhhh I slept so much better, and they were getting soft. I could actually go to the bathroom now without crying. The next morning I had my 4th bath, and they were so tiny, almost gone. The next morning, my fifth bath...

Are you looking to live a green life, free of chemicals and toxins? Due to product rules, I am unable to publish the products or personal peoples names on my blogspot. But if you have any questions? Go to "About me" and double click and email me. I can give you more information privately.
