

### ***"Better than a perscription"***

Stephenie Reed | ROGERS, AR

*"For me, this helps me sleep throughout the night. So far I've been on mild perscriptions to help me get to sleep but did nothing for the rest of the night, if I woke up. With this, Not only do I get to sleep, it's easy ZZ's throughout the night. And bonus, You don't wake up feeling like you've been drugged. "*

### ***"Horrible bout of insomnia..."***

Julie Jones | CLATSKANIE, OR

*"For about 2 weeks now. Decided to give RestEZ a try instead of using RX sleep meds. This really did work. It was subtle too -- not like when you take RX meds and it hits you all of a sudden. It's nice and easy! You also don't wake up groggy with that hangover feeling. It's so nice to sleep again!"*
