

Cancer Research and Immunocal – Including Testimonials

Immunocal and Cancer

Here is some important information.

First is a video on the founder of Immunotec, Dr. Gustavo Bounous. Then some testimonials on how Immunocal has helped people with various forms of cancer.

Also included, I have reviewed the research and highlighted some of the main points from the research extracts.

Tribute to Dr. Gustavo Bounous and his Pioneering Research on Cancer

i started using immunocal after treatments for stage 4 malignant melanoma in 2003. the doctors back then had little to offer except two years to live. immunocal or god kept me alive however the doctors never offered anything as totally life improving as immunocal. it has reduced my allergies, colds, flu, fever blisters(viruses),and improves your entire general health. not one of my doctors has ever expressed interest about me taking this product because it reduces their business. this product works it may even save your life or at the very least improve your quality of life. compared to chemotherapy, radiation therapy, and man made drugs, immunocal tastes pretty good with milk yogurt, or fruit juice. i started to see noticeable improvements within 60 days of taking two pouches a day. i did become a dist. but just for the savings of buying the products.
