### Cancer, The day my life changed forever !

by [Wolfmont](#) on Thu Feb 01, 2007 08:00 PM[Quote](#)[Reply](#)

On September 1,2006 I was diagnosed with a very aggressive form of Prostate cancer, Stage 4 Gleeson 9 with a psa of 128. I have changed my eating habits and taking supplements and of course also Flax seed Oil with Cottage cheese. All of this has helped but I started taking 1 product actually recommended by my Doctor called Immunocal or HMS90 , which is a whey protein isolate which naturally elevates your Glutathione level . Glutathione is considered to be the Master anti-oxidant . It boosts your immune system naturally and it is probably the greatest discovery since penicillin. I have been taking it for 5 months now on a regular basis and my PSA is down to 2.7 , which in efect means I do not currently have cancer. There is nothing on the planet that is so safe and natural and actually attacks cancer cells and boosts your whole immune system. Aid patients as well as cancer patients now have a new hope with HMS90. You can get more info from [www.immunotec.com/marjoe](http://www.immunotec.com/marjoe)
