I love everything about Melaleuca. They helped me get out of a financial slump and I continue to build my business. I love every product I try. From the melaleuca oil, the melagel, ecosense line, I love I only need 1/2 ounce to clean a load of laundry. My favorites are tub and tile. Works SO well, I don't have to run out of the bathroom when I spray to avoid chemicals in the air, works better than any other bath cleaner I used to use and leaves it smelling great. Renew lotion and body wash.. I had psoriasis on my face for years, I had tried prescriptions from the dermatologist and every over the counter lotion available, nothing helped or made it go away. Until I tried renew!! First night I felt relief, by the end of the week , the redness was gone and no pain upon touching my face. Totally cleared it up. I have been a member since Feb, 2013 and will continue to be. So amazing and so glad I found Mela!!
