I have been using Melaleuca all natural products since 1989. Simply put there just are not any products made anywhere on Gods Green Earth that could ever begin to compare to these fine products. I have had amazing results with every product that I have ever purchased from Melaleuca. I must say that my favorite product that I love the most would be the T36-C5 Melaleuca oil and what it did for me after only about two weeks of use. I was completely healed of this horrible flesh like skin eating disease. Thank you Melaleuca. I just wish that the Melaleuca company would develop some all natural cat products and please, please bring back ULTRA MIST Air Freshening system.. I still have the bottle that I purchased back in 1990 However it is almost all gone... So please Melaleuca bring back that wonderful product.
