### Users' Testimonial

By using Teivon Negative Ion Clothing, you will make big difference to your life quality.

The following statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any diseases.

#### Arrhythmia, High blood pressure, Perspiring hands, Menopause.

Sue Sia Zhiu, Taiwan  
Product use: whole set

Sue is a child I have been sick and weak. I have always had medical problems. March of this year my friend introduced me to negative ion products. I was happy because I believed this is the start of my good life. I purchased 2 whole sets of negative ion clothes. My husband and I used it diligently. Soon my monthly cramps went away.

Three weeks after starting to use these special clothes my heart palpitated which caused my mumur and arrhythmia no longer bothered me. Now I don't have tightness in my chest or perspiring hands. This is the first time in my life that my hands are dry. I have used the product for 5 months and now I don't catch cold easily. I no longer have a hard time to catch my breath. My husband no longer has sun on his complexion. It was two years ago when I bought two sets of clothes for my child, then a complete set of Teivon. Half a year later, he did not need antibiotics after catching a cold, because his immune system was greatly improved and his skin was cured completely.

My husband sleeps well every day and he no longer complains of tiredness. My husband blood sugar and high blood pressure is getting normal. He looks younger and he is more energetic.

Now I am so energetic and with good spirits. I can eat and sing and dance. Now I am like a new person. You deserve to own negative ion clothing and bedding too.

#### Aches, Urinary, Hypertension, Heart disease, Gout

Qu Mei Ju  
Usage: complete usage

After my diagnosis, Susie had an operation because of colon cancer; she used the complete Teivon product and she saw very positive results. I trusted my clearemate and used the product. At the beginning, my husband and I used the Teivon blanket together, and I bought him Teivon underwear, because he had diseases, which include hypertension, heart disease, and gout which would require that he seek emergency treatment at times. I could not believe that I am so lucky. I got well and my husband has been improving. Teivon is improving my family's health.

#### Allergic physical condition, Common cold, Asthma

Jian Wen Long  
Symptoms: Usage: complete set of Teivon

My child had dermatitis after his birth, with a final diagnosis of allergic physical condition. This altered our life in that we had to become acutely aware of our food, drink and surroundings. Then I found out that my child also had sinusitis, caught colds frequently, and his asthma would always be triggered by a cold so he needed to take antibiotics. I went to every specialist I could, but none of them could cure my son completely. It was two years ago when I bought two sets of clothes for my child, then a complete set of Teivon. Half a year later, he did not need antibiotics after catching a cold, because his immune system was greatly improved and his skin was cured completely.

#### Acute Leukemia

Product use: Whole set  
Name: Chun shi zhei, Taiwan

Life is so unpredictable. In June 2002 my life went through a big change. I was diagnosed with acute leukemia. My first symptom was a cold. I went to 4 different doctors and they all said I had a cold. In addition to the cold symptoms I had diarrhea, poor sleep, dizziness, general discomfort and I had lost a lot of weight. I thought it was because I was working too hard. When my vision became impaired and I was seeing black spots, I realize it was serious. I went to the hospital and I was diagnosed with acute leukemia. This was like a death sentence. I felt like someone had hit me with a baseball bat. Life became dark with depression. After chemo therapy my immune system decreased and I developed pulmonary edema. I continued to have diarrhea. The doctor notified my family because I was in critical condition in an isolation room at the hospital.

My parents would not give up. They brought lots of negative ion clothing and bedding in to the isolation room for me to use it. I am so thankful that my primary doctor knows the benefits of negative ion clothing and he permitted it to be brought into isolation room. My parents brought me 3 sets of negative ion clothing including: blankets, supports and Eskimo shirts and pants.

After chemo therapy I had to change clothes every 3 to 4 hours and my blanket every 3 days because the clothes and blanket would have a chemical and medication stench. The negative ion clothing took up all of the chemicals out of my body right out through my skin. Those chemicals and medications from chemo therapy must be excreted or they cause kidney failure and then dialysis is the only way to get it out.

After chemo therapy blood counts must rebound and are critical for fighting infections and complications. Lots of patients lose their lives because of this. The negative ion clothes helped me to recover and rebound more quickly. My energy level improved more quickly than others. I had a comparatively much shorter recovery time than others. After chemo therapy, while I was waiting for a bone marrow transplant, the SARS epidemic over-took Taiwan. The neflu products got me through this time of crisis when I was not able to get a bone marrow transplant for an extended period. This product helped me safely pass this critical waiting period, and it helped my bone marrow transplant go smoothly. For example: when a former giant hit field, the seed needs rich soil to harvest a good crop. The same thing is true with a bone marrow transplant: if the body is in healthy nourished physical condition it accepts the bone marrow transplant easily.

The usual hospital stay after a bone marrow transplant is more than 40 days but only took me 28 days. After I was discharged I had to take corticoids to prevent my body from rejecting the bone marrow. Every time I went back to see the doctor they continued to decrease the dosage. As of Jan 2005 I no longer need medications. Now after using this amazing neflu product for one and half years, not only am I without need for medication, I am able to travel to Egypt for one month and lead a normal life.

Prevention is more important than therapy. Your health is priceless and you should take care of it. You should take care of your health when you are in good condition. Don't think you are young and healthy and disease is far from you. This product can give you a good immune system. I am so thankful that my parents introduced this product to me. I am thankful that the Nefflu Company has such amazing products available to help people live a healthy lifestyle.

#### Allergic coryza

Zheng Mei Zhu  
Usage: complete use

I have worked on the mainland for a long time. In my earlier years, I was healthy, but in my later years my power of resistance decreased. I always got colds with nasal obstruction and coughing. I could not sleep well, and the medicine I was taking simply had no effect. I always sneezed in the morning after I got up, and could not breathe easily because of nasal obstruction. I suffered immensely. I went to the largest hospital in Guangzhou, South Hospital, and was diagnosed with allergic coryza. According to the doctor's instructions, I took medicine and drank soup (brown mushroom soaked with lean meat, one bowl a day). However, there was no improvement. One time I was taken to Xinhua Hospital for half a month because of fainting that was induced by lung inflammation. At that time, I felt lonely and depressed. I came back home for the New Year celebration, and spent a few ten thousand yen on the neflu products. After some time, my morning sneezes stopped and I could breathe freely. I have been using the Teivon health clothing for about two years. I no longer get colds and my immunity has been enhanced. After using Teivon, my life has gone from black and white to colorful. This wonderful feeling cannot be expressed. I am very lucky and want to share how to obtain good health with every one.

#### Allergic rhinitis neck and Shoulder pain, Calluses in vocal cord

Hui Ling Gu  
Usage: Basic gears, body wrap, long pants, elbow bands and knee bands

I was originally an office worker. One day I woke up with neck and shoulder pain that was caused by an awkward sleeping posture two years ago. This pain at work also worsened the pain. I would often wake up in the middle of the night because of the pain, and the quality of my sleep was bad, sometimes I couldn't even fall asleep at night. In this year April, my aunt, Shu Chen Tao, shared her knowledge on Nefflu products with me. She said that this product would be able to improve my condition, and she told me many testimonials. I was intrigued, but skeptical at the same time. I thought it was worth a try since it was not a very expensive something. I bought two sets of basic gears. After using them for a month, the pain was significantly alleviated, and I no longer had insomnia. In November last year, cancer genes were discovered in my local cord when I was being examined in Veterans General Hospital. In fact, I have already lost my voice half a year before that. I have been seen several otorhinolaryngologists, but they couldn't find the cause. The medicine didn't work, but caused pain instead. The symptoms would return a week later, and that's also the reason why I gave up on the medication. I thought that using the neflu products might do some wonder, however, my nasucous still wasn't improved significantly. I started to question the products, so I spoke to Yu Hui, the magnificent leader. That's how I found out that I wasn't wearing enough of the products in the daytime. She suggested me to put on the body wrap, long pants, elbow bands, and knee bands for 24 hours a day. After wearing the products 24 hours for two months, my nasucous significantly improved indeed. Another 6 months have gone by, and the situation kept getting better. My chronic allergic rhinitis has also unknowingly improved. I no longer have difficulty nose and keep sneezing when I wake up in the morning. I really thanks my aunt, Shu Chen Tao, for her constant care and encouragement that help me to gain health and wealth. I also thank the Chen-Shan-Hei system that helps me to grow so much. I thank Mei Shue, Chen Hui, and all the area general managers for their support. I thank the encouragement from Yao Ming and Yu Hui, the magnificent leaders. I am so thankful the Chen-Shan-Hei system provided by Long Han and Jia Cheng, the magnificent leaders.

#### Breast cancer and Rheumatoid Arthritis

Media: TVBS website  
Subject: Tang Hui-Pin stands up again  
Overcome breast cancer and Rheumatoid Arthritis!

Tang Hui-Pin stands up again  
(Reporter: Chuang Chih-Mei, Jing Kuang-Hsu reported in Taipei)

Seven years ago, a woman, named Tang Hui-Pin, who suffered breast cancer accused her husband of an abortive homicide because her husband intentionally concealed her disease, and this case shocked the public. For several years, she suffered and almost died from the seriously deteriorating disease, and she also suffered from Rheumatoid Arthritis which disabled her, but now she has defeated the serious illnesses and stands up again. She uses her own experience to help more people to overcome their difficulties.

Standing up from the sofa with the support of a cane is a simple action, but it is a miracle that Tang Hui-Pin who once was unable to stand up for five years for serious arthritis.

"Tang Hui-Pin: "I'm very happy, but after I stood up, I had a new perception of my own experience. I found that my friends that went past these years are not as lively as I imagined them before!"

You may forget that seven years ago this pleasant woman accused her betraying husband, who was a doctor, of intentionally concealing her breast cancer with the purpose of terminating their marriage, which was reported in newspapers as a lead story. Later, when her state of illness was in crisis, she decided to forgive her former husband and withdraw the accusation.

Tang Hui-Pin: "I am really thankful that God has my life suffer from the painful torments. Due to the pain, I could comfort some people. Because I have gone through the pain and get better and better now, I could inspire other people." Tang Hui-Pin: "said: "430, Day-Buy! As my body keeps improving and I can move more and more freely, my desire for living becomes stronger and stronger!"

Her arthritis became serious because of her cancer, as a result she had been paralyzed for five years and often faced death until July of last year when some friends introduced her the negative ions clothing. Her illness was relieved after she started to wear those clothes, at last she can stand again and uses her own experience to promote the product, and can keep the pot boiling.

#### Cerebral Palsy Use Lin 2 and a half year old girl

Premature baby born 7 month  
Use whole set  
Mother - Tung Sue Jan

During my daughter delivery her brain did not get enough oxygen. Her right and left brain hemorrhaged. The doctor assessed cerebral palsy. This was followed by all extremity handicaps. We relied on rehab to help her.

June 2001 she started rehab. She has been in Rehab for about 2 years. Until now there has been no improvement in her hands. Her feet are still stiff. At the end of March 2003 my sister told me about a miracle fiber called Teivon that was helping people. In the beginning of April I bought the whole set of negative ion clothes for my daughter. In May she was eating by herself and was improving a lot. Now my daughter can memorize poems. She can count to 10 and she can recognize and name the colors. In daily communication she can express her self well. Her extremities and her hands and feet have no problems at all. She can move any way she wants. She has good hand eye coordination and good large and small motor skills. She can walk with big steps and she can crawl. With her old dress she can stand up with the support of the rail. My daughter used to be very agitated with a bad temper. Now she is mellow and gentle. She constantly had lung congestion. She had mucus all of the time now her lungs are clear.

As a parent I am so happy to see my child have health and a normal life. There is nothing you can compare to the joy of seeing your child healthy. It is most important.

**Constipation, Asthma, Hypertension or Low blood pressure**  
Lin Xiu Qing

Usage: complete set of Teivon clothing

My daughter was constipated when she was two years old. At first, I had not paid enough attention about it and only visited a clinic near my home. However, there was no improvement in her condition and I severely interested traditional Chinese medicine and medical doctors were unable to help. We then used the primitive and cruel method, colocolyx, though I worried she might have abnormal defecation. I also worried that her vulnerable intestines might become damaged if she used this method continually. During that time, my friend, Xiaojun, told me that negative ions could improve my daughter's problem so I bought the clothing for her. My daughter recovered, but quite unexpectedly, her immunity over colds and her ulcer also improved completely. I bought the products for my family. It improved my mother-in-law's asthmatic condition, my gynecological problem, and my hypertension has improved from 50-80 to 75-110. It is great!

**Cough, sore throat, numb leg**  
Tina Tang

December 28th, 2003, Doctor Huang brought the information of negative ions from Florida. I decided to join the membership as soon as I found out that my old friends Paul Liao and AGM Mei Lin are in the business too. I drove to meet them in Atlanta on January first, got a seasonal magazine and a book called Negative Teivon as gifts. That information is very precious included thousands of testimonies from different people. I was deeply amazed by the highly technology today, all those hard working has become a great achievement to people in the world. Because of the contribution, people are allowed to recover from disease and injuries soon. It is a miracle.  
I received a package from AM Doctor Huang on February fourth, it was a whole package of different colors scarf. I told myself: "100% of Teivon, it is certainly the best". So I immediately chose one for my eight-year-old daughter. She felt a lot better within only four hours. Miraculously, it improved her sore throat she got from coughing for two months. It also cleared out all the mucus in her throat. Since then, I share this product with my good friends everyday!  
Jin Jin, who is a good friend of mine, has suffered from numb legs for fifteen years because of the cold she caught during the process of delivering her baby. After three weeks of using the products, the numbness improved a lot. Another friend of mine had also improved her problems after using the products for two years. She was really surprised and happy. This is such a blessing that not only helps oneself but also helps other people. Thanks to Paul Liao, Mei Lin and AGM Mei Lin for their supports, cares, and pays. Because of their kindness and help all the way from California and Florida to New Jersey, and the courses provided by Chen Shan Mei success team, this has become the best business of my life.

**Type 1 diabetes**

Product: Whole set  
Chung wan zu, Taiwan

I was 18 years old when I was diagnosed with type 1 diabetes. I spent the golden years of my youth taking medication all of a time. I was tired of taking medication. I used all of the wisdom of eastern and western medicine. I tried vitamins and supplements. I asked Buddha to help me to lower my blood sugar. I searched tirelessly to find anyway that I could help myself until I got a bleeding ulcer. Then big lump grew on the palm of my hand. I had to have this lump surgically removed. I had to stay in critical care for 3 days because I was a diabetic having surgery. I was weak and my immunity was bad. Medicine was my company every day. When I was 38 years old I had a neuropathy on my foot. I lost the feeling on my foot. Because of my financial condition I still had to work as a housekeeper. I got a crack on the bottom of my left foot. It got infected. It caused cellulitis and I had a constant fever. The doctor had to amputate my big toe and my small toe to save my life. On the bottom of my left foot the doctor cut two big holes to remove the dead tissue. Weren 2 and half years I was in and out of the hospital 12 times. In the hospital I got antibiotic and cortisone shots.

I thought that God must have a good reason for my trouble. My angel or friend, Shu Mei told me about a high tech product of negative ion clothes that would improve my health. I was skeptical but I wanted to give it a try. I dared to take all of those medications with all kinds of side effects. I reasoned, why was I afraid to wear these clothes that couldn't harm me. So I bought the whole set and this is really a miracle. Within the short period of 3 months my blood sugar dropped from 400 to 130. The bottom of my foot was healed and not bleeding any more.

I was so happy with my blessing that I wanted to share this negative ion product with other people. Through this business I was able to get out of poverty. My life has gone from black and white to colorful. I am thankful for this amazing product.

**Type 2 Diabetes 11 years, Pain and Stroke**

Product: Whole set  
Chen Chi Chung, Taiwan

1991 I was diagnosed with diabetes my blood sugar was 365. On that day my life became colorless. The doctor prescribed medication. I saw all of the famous doctors that my friends introduced me to. I spent 11 years switching from doctor to doctor making myself a guinea pig for all of their cures. Until May of 2002 when my daughter brought home a big package of special clothes and a blanket. She told me if I wear this it would improve my health as well as the diabetes and pain. I really did not believe it would help because I was in the Chinese medicine business. I thought about my daughter and how caring she was so I used it. The second day I went to check my blood sugar it was 223. One month later I checked it and my sugar was 222. I came home and told my daughter that this product is not helping me any more. She called her AOM. The AOM told me that her father needed more Negative Ion products. So then she brought me all of the supporters. I had the full set. In 4 and a half hours I went to the bathroom 5 times. The whole night I didn't sleep. The first night I went to the bathroom 5 times second 4 times and each night I had to get up less and less. The second month after I used the full set, I went to check again the blood sugar dropped to 192. And then after 75 days the sugar dropped to 103. From that day on my life is colorful again.

My friend wife had a stroke 5 years ago. She couldn't even go to the bathroom by herself. She couldn't walk. She couldn't do anything on herself. She needed constant daily living assistance from her husband. In May of 2005 she started using negative ion clothing and bedding. Before she used the product she urinated every 4 hours. After the second day of using the product she urinated every 2 hours and the volume was double. When she started using the product she wore 3L waist bands. After 3 days the waist band was too loose. After 25 days she was able to stand up with the support of both hands on the wheel chair. In 28 days she could stand up easily holding on with one hand. After 47 days she took her first unassisted step in 5 years.

If you use the full set soon you will have a good result; you want.

**Erythema lupus, Rheumatoid arthritis**

Lu Hingfen (American)  
Usage: complete set usage

When I was nine years old, I would feel tired and always got fevers, at last both of my feet became swollen, and I could not walk. I was taken to the hospital and was diagnosed with acute osteomyelitis. I was operated on quickly and my life was saved. After two years of care, both of my feet could be retained but this was not to be the end of my health problems. In June of 2000, I was diagnosed with acute osteomyelitis, and I got palsy. I later found out that I was severely diagnosed and needed Erythema lupus and rheumatoid arthritis. My future seemed very bleak. I decided to use Nefflu's complete Teivon product line. Two months later, my aching symptoms were alleviated and I stopped taking my medication. I returned to the hospital for a checkup and the doctor said my situation had improved. The doctor told me I could reduce my medication dosage and one month later he said that I could stop taking the medication but suggested I continue to use the steroids for my blood vessels. I then told my doctor that I had not been taking any medication for the past four months. At a follow-up the doctor told me to stop taking my medication and encouraged me to wear the negative ion clothing. If I had not experienced this for myself, I would not have believed the magical effect of negative ion clothing.

**Foot odor, Paronychia, Ruptured heel, Lipid dermatitis, Neurodermatitis**

Wen Xiangrong (San Francisco of USA)  
Usage: complete set usage

I have worked as a doctor for thirty years and now live in San Francisco. I used the Split Toes Socks, and three days later, the foot odor that harassed me for a long time disappeared. My paronychia disappeared five days later; the rough skin on my heel area become smooth just ten days later. How magical! The sole of the foot is the second heart of a person; there are 63 acupuncture points within. Teivon socks can improve your condition if you are sick, and when you are well it can protect your health. I then began to use Teivon underwear and blankets. After three months, many of my health situations improved. The seborrhea dermatitis of my head disappeared; the sensitive skin of my nasal area is getting much better; my eye pouch is becoming less visible; my facial skin became lustrous and ray and the neurodermatitis in my right elbow joint disappeared completely. I became vigorous and my spirit became well. I think that the Nefflu Corporation is a great group and that their product is magical. I would share the magic of Teivon with everyone I meet.

**High glycosides, abnormal blood circulation, high uric acid**

All I can do is grateful!  
Liu Hui Fang

Working hard for many years created many problems in my body including high GOT, GPT, high glycosides, and even pain on foot. Yonquan acupuncture. Lack of movement resulted in heavy body weight, abnormal blood circulation, hand numbness and soreness when I slept every night, and I would cough if I spoke too much. These symptoms were not improved by integrated medical and western medicine. I had some reactions after using the products, but I only wore it for several days. The pain in my foot would increase every time I wore the clothing. When I initially wore the scarf, I seemed to cough all the time. I thought I had been cheated but learned afterwards that these were improvement reactions. It was important, so I went to hematologist and chemical analysis after wearing the clothing for about one month. My myeloprotein decreased from 202 to 100 (the normal level is below 160), uric acid decreased from 6 to 4.4 (the normal level is below 7), Yonquan acupuncture on the foot was not painful anymore, symptoms of hand soreness and numbness improved completely, and the cough had also been improved. All I can do is grateful.

**Hip and Knee Joint Pain and Numbness, Hepatitis C**

May-Fang-Yang (Taiwan)  
Usage: Full set plus waist support

My mother was suffering with long-term hip and knee joint pain and numbness. While she was climbing the stairs, she had to pound her own hips in order to ease the pain. When May-Fang AGM introduced me the negative ion clothing, without hesitation, I bought a few pieces of underliners and underpants for my mom to wear. Within less than twenty minutes, mom started to have reverse reaction, and we immediately realized the effectiveness of the products. Then we decided to buy the elite blanket for her. Soon her sore and pain have improved. She did not need to pound her hips while she was climbing stairway. As for myself, using the wrist band has help me heal 90% of wrist pain which was the side effect of a long-term computer use.

Negative ions healthy clothing not only improves my mom's aches and pains, it has also helped her to recover from hepatitis C. In June, 2004 due to her upset stomach and vomiting, mom went to see doctors thinking she caught gastroenteritis by a cold. After quite a few checkups, through the blood test, doctors accidentally found that mom had hepatitis C instead of gastroenteritis, and she was put under control of medication. We immediately increased the quantity of negative ion clothing for her use. She use the full set plus waist support with blanket 24 hours a day. At the meantime, we have arranged mom for physical examination at Chang Gung Memorial Hospital.

**Hypersensitiveness of the body**

Mystery of negative ions  
Liao Weishi (Florida in the USA)  
Usage: complete use

I emigrated from Taiwan to the U.S. twenty years ago. I started out with nothing but became very successful. I began to have some health problems after wearing down my body for fifty years. I learned that a small disease will become serious if not treated. One day I got wet in the rain. Next, my foot cracked, became infected, and my body temperature was high for treatment. Three days later, I got well. Six days later, I realized that a small scar that I had been about 0.5 cm long disappeared. I was very astonished. From that day on, I came to learn about the mystery of negative ions to the human body, and even found that the negative ion is the key factor that can improve people's health in the future. This has been generally accepted by many research reports from famous medical colleges in the USA. Until now, products have not been available that contain negative ions. I have been using the Teivon products exclusively for five months, and I feel like I am ten years younger.

**Hereditary diabetes mellitus**

Teivon give me new life  
Zhuang Huiwei  
Usage: complete set usage

I was eighteen when I was diagnosed with hereditary diabetes mellitus. I had to take medication daily for this condition. I wanted to change, so I bought a folk prescription from the traditional Chinese medicine and medical doctor. I even prayed to God about my situation and was careful to eat healthy foods. However, nothing seemed to decrease my blood sugar. My stomach was bloating, my hands grew hard clumps, and I was very weak. When I was thirty-eight years old, the peripheral nerve of my left foot became numb. My foot cracked, became infected, and my body temperature was very high. I went to twelve hospitals in two and a half years and none of them were able to help me. I bought the complete Teivon product and found it to be very magical! In three short months, my blood sugar level decrease from 400 to 300 and my foot stopped bleeding. I share news about the Teivon products with others constantly, and my life has become very interesting. I want to thank the Nefflu Corporation for this great product.

**Hysteromyoma, nervous system maladjustment**

Xu Guiling  
Usage: complete set of Teivon clothing

I lived in Brazil for six years and had profuse uterine bleeding. I moved to St. Paul and my health worsened. I then took medication for half a year and my health still did not improve. When I was examined, the diagnosis was a uterine tumor. After an operation in Taiwan, my doctor said it was nervous system maladjustment. When I heard about Teivon products, I did not believe the claims but after wearing the clothing my health improved and the white hairs on my head gradually turned black. My husband got asthma reports from famous medical colleges in the USA. Until now, products have not been in his knee, took calcium tablets and vitamins, but he did this to no avail. After using the knee pad for a week, he has had no pain for the last three months. This has been unbelievable good luck for us. It also gave us a chance to be able to help other people who need to improve their health.

**Hypersensitive body, midrange language retardation**  
Zhang Jin wei  
Usage: complete use

My wife and I are hypersensitive and both of my daughters have a hypersensitive constitution. My younger daughter's situation was the worse; she had to drink antiparasitic milk powder before she was one year old. She often needed to be taken to the hospital because she got colds, had trouble breathing, accumulated mucus, and she would cry because she was always constipated. However, after my daughter wore the Tevion underwear, she breathes more easily and her mucus decreased and could be easily expectorated. I came to trust the product and bought the complete set. My eldest daughter had always been one of few words, always expressed herself through gestures, and could say "mama" but not "dada", when she was four years old, we became aware of the importance of this situation. This came as a great shock. I took my daughter to see all sorts of doctors and tried every kind of treatment, but it was to no effect. My daughter wore the Tevion clothing that was used to improve her hypersensitive constitution and her brain cells were activated. She first learned a few more words, and then she progressed to sing an entire song, and a beginning to express what she wants to say in words. In the past, the expression in her eyes was uncertain; now she could listen to my story attentively, and calls me "dada". I am very excited!

**Inherited diabetes, eczema, back pain, insomnia, stiff neck and shoulders, ring worm of the nails**  
Lai Fu Lin  
Started from using knee bands to using the complete set with the blanket

I thank NEFFUL for making such wonderful products, and I also thank the benefactor in my life, Mr. Su Xia Lin, the area manager for sharing "Tevion's health" with us. Over the past four long years, my husband's blood sugar level had once risen to more than 300 because his inherited diabetes. His high fat content in his blood, stiff neck and shoulders, and insomnia have bothered him all the time. He is tired in the daytime, prone to flu, weak and is so much pain that his life was truly grey.  
Faith is power. Under the encouragement of Mrs. Lin, I started from using knee bands to using the complete set with the blanket. After wearing them for 4 and half months, my blood sugar level before meal has reduce from 220 to 170, when then further dropped to 150. My other physical problems were also improved. During my scheduled checkup in December 2003, the doctor even said to me, "Mr. Ye, I think from now on you can come see me every two months!" How exciting this was! The daily dosage of my medication was also reduced to half (8 pills reduced to 4 pills). My husband gained back his confidence in his work. His temper got better, he looked better, became younger, and our family is filled with laughter. Seeing the improvement in my husband's physique, appearance, and blood sugar level, I also started using the complete set of products. Besides the improvement in my chronic back pain, which's even greater in with the skin aloer in my right foot's eczema. When I acted up, I would be in so much discomfort because of the pain and itchiness. I had to wake up in the middle of the night for scratching. There was improvement after the doctor gave me cryotherapy, but the symptoms would return frequently, and the problem couldn't be cured. Because I wear the underpants/pants, polo shirt, socks and protective bands, I no longer had to wake up in the night for scratching within 3 months, and the improvement of the nail in my right toe was about 60% cured. My right knee had pain as the result of a fall two years ago. I wasn't able to go up stairs. Massages and putting on patches only had temporary effects. After using the knee bands, the spot in my knee that caused in due to spasms and blood stress once again became flexible.  
At the end, I would like to thank Su Xia for sharing the high-tech negative-ions products that helped my family to be full of energy. I also thank her for introducing me into Chen-Shan-Mei the world's greatest organization. "Tevion brings you health and wealth, and it's a very valuable thing for you to have."

**Insomnia, headache, maladjustment of nervous system, depression**  
Lin Meiiao  
Usage: complete set of Tevion clothing

I had body aches, which caused me to take medicine for many years for a host of symptoms such as headaches, poor immune system, terrible backache, rheumatoid arthritis, and nervous system maladjustment. My pain made me miserable beyond description. My symptoms were serious, and this made me extremely depressed. After hearing a report about Tevion clothing, I began to wear a complete set of it. In about ten days my insomnia improved and I noticed that my resistance also improved. Before using Tevion, I caught colds often, but now months go by when I don't catch colds. Before using Tevion, I needed to take medicine three times a day for my back pain, but now I only take medicine once a day, and even when I forget to take medicine sometimes I feel no pain. My mother-in-law said that my symptoms were greatly improving, so she now uses a complete set of Tevion clothing to help her joint swelling and pain. She moves with much more ease and since her pain is gone she is able to serve in her community, and she has discovered the pleasure of helping others. I thank the mysterious negative ions for bringing this benefit to mankind.

**Kidney Failure, Diabetes, Autonomic Nerve Dysfunction, Insomnia, Headache and Weak Heart**  
Nancy Qiao Ming Hung  
Product use: whole set

When my mum was young she worked hard even though her blood sugar was over 400. She ignored her diabetes which is very harmful. Her metabolic system was severely damaged. When she was older she was plagued with all kinds of illnesses because of her diabetes and her metabolic problems. As she got older she got worse. More and more problems piled up. She was on insulin since 1986. Till now in July of 2002 she has been hospitalized every 3 to 4 times to adjust her insulin dosage. Her symptoms have been happening one right after the other. Her eyes got cataracts so she had surgery. Her heart was weak and she had angina. Because of her health condition the doctors were afraid to do anything. Surgery would be dangerous because of her diabetes. Her kidneys failed and she needed dialysis. She got neuropathy of her feet and hands. She got degenerative arthritis and insomnia. She took 2 or 3 sleeping pills at a time but she still could not sleep. My mom was such a caring loving person she still took care of my father every day.

Two years ago my father suddenly passed away. My mother was so mentally depended on her husband she became depressed and all of her illnesses became more pronounced. As a son I did not know how to take care of my mother. In this critical period our life saver Lin Lie, an AGM with the NEFFUL company told me to negative ion products. My mom did not like direct sales and she told me not to buy it. I tried very hard to convince her to try it. I got her a clean cloth to put around her neck. She felt good because of the clean cloth. Her neck felt much better so I got the whole set for her. Now my mom uses the whole set of Tevion her health has much improved her blood sugar had been 450 to 500. It dropped down to 120 to 180. The insulin dose dropped 8 units. Her heart no longer needed nifedipine. Her kidney function has much improved and she did not need dialysis any more. Amazingly now she does not need sleeping pills to make her sleep. Now she eats well and sleeps well. Her immunity has improved and has helped her fight all her illnesses.

Thanks for Lin Lie for encouraging me and I have such a blessing using this amazing products. Now I have success in helping people business.

**Knee Joint Pain**  
Kathleen Israel, San Diego, CA  
Product use: whole set

Did you ever hear of NEFFUL's Tevion, the amazing fiber imported from Japan has unique capacity of always gaining electricity of the negatively charged which is beneficial to our health? I am so glad I was introduced to this product and give myself a chance to accept it. I had arthritis in my knees. When I used to go to church I couldn't kneel properly and it hurt. Now I can kneel easily with no pain. It is so cool!

I bought underwear and joint supports and bedding. I love to sleep in my Tevion blankets. It is like sleeping in negative ions spa restful and I don't snore any more! When I get up in the morning I put on my under garments and supports on my ankles, knees, elbows and wrists. During the day the negative ion cloth acts like a sponge soaking up my positively charged toxins. I wash the clothing before I go to bed to clean the positive ion gunk off of the negative ion fibers and I hang it up to dry.

I didn't even realize my ankles were uncomfortable. When I put on the ankle supports I felt so good. The same thing happened when I put the hat on. I didn't realize my ears were uncomfortable. The comfort I felt when my ears in the hat was mellow and it made me smile.

**Left hand numbness, tendon spurs in the left wrist, Hand eczema, Bronchitis, Insomnia**  
Bao Meili (Dales of USA)  
Usage: complete set usage

Left hand numbness and powerlessness have always cursed me. One morning I woke up and found that there was a tendon spur in my left wrist that was uncomfortable to the touch. My doctor told me to cut back on my housework and that there was no good medical treatment. After using a Tevion glove, my tendon spurs disappeared and my hand numbness went away. Some months later, my hand eczema disappeared. I had been a teacher for a long time and my throat became hoarse and inflamed but those symptoms have also disappeared. I have a friend who takes sleeping pills at night. I told him to use the Tevion blanket, and he slept well for the whole night and did not use any sleeping pills. He now uses the Tevion clothing, and his insomnia has disappeared.

**Lingering effects of brain operation**  
Wu Yu lian  
Usage: complete set usage

Five years ago, my son was operated on his brain five times because of a car accident. Because of medical exclusion, the place of operation supported. In the hospital, I employed a man to attend to him for one year. I spent a few million dollars. When my son went home, his mind and motion were not active, and he would sometimes crawl. We did not know what to do so I bought Tevion clothing for my son. On the first night we dressed my son from head to toe in Tevion clothing. In a short time, I found that his motion and the expression in his eyes were different, and he had no more cramps and all became well. Some days ago, he got a driver's license and is now able to attend school. How magical Tevion is! Tevion is good for my entire family.

**Macular degeneration, Joints pain, Tendonitis, Aging spots, Sun damage, Wrinkles**  
Gwen Spires, Fullerton, CA  
Product use: whole set

My name is Gwen Spires. I am 70 years old. In June of 2005 my vision became blurred. The ophthalmologist diagnosed me with macular degeneration. I was told there was nothing that would help except to take vitamins to slow down the progression of this degenerative eye disease which eventually would cause me to go blind. I was very depressed thinking of all the things that would happen when my eyesight left. About 4 weeks later I was introduced to an amazing product called Tevion imported from Japan by my friend named Nancy. At first I thought this was some kind of scam; but thinking that I would go blind eventually, I gave myself a chance. I started using these products of clothing and bedding including an eye patch and a hat made of Tevion fiber. Three weeks later the blurred vision had improved and I was very pleased by the results. I am inspired by other amazing results also. Some of the pain in my joints and my hemorrhoids has also gone away. The sun damage, aging spots and wrinkles on my skin has greatly improved. I am now feeling and looking younger. I can see a remarkable improvement after three months of using Tevion products. I can imagine that if I continue using this product it will continue to have a remarkable improvement of my health and quality of life. I feel like I am in a cocoon of energetic happiness. Gwen

**Manic Depression and Hypertthyroidism-Hypothyroidism**  
NEFFUL gave me back my beautiful life  
Products use: whole set  
Yu Teng Shih, Taiwan

Three and a half years ago I was diagnosed with congenital hypertthyroidism. Frequently I used cortisone and frequently I had a high fever. I had to go to the emergency room a lot so I could not take care of my housework and I could not take care of my children. I could not enjoy my relationship with my husband. Several months later I found out that I had manic depression. It was said that I inherited it from my father. I was wondering why God was playing with me in this way. I was confined to a psychiatric hospital. After 2 years even though I had determination to fix my illness I still could not fight the depression. I tried hard to fight the disease. Because of the pressure in my life the illness came back again. I wanted to cry but I had no tears. I was angry with God because He sentenced me to have this problem.

After 2 years I was readmitted to hospital again. I cried every time I saw my children crying. They were taken away from me and given to my mother who took care of my children while I was in hospital. When my children cried I just could not take it. I was so hurt. I do not know how many days and nights I cried. I miss my children.

They used iodine therapy for my hypertthyroidism so I could temporarily improve my health. I had side effects and which caused me to have hypothyroidism. Then I did not have monthly periods. I suffered painful result after painful result.

Now I am so thankful for NEFFUL products. One month after I got the whole set of negative ion clothes and blanket I had my monthly period again. My manic depression disappeared along with my insomnia and anxiety and muscle cramps. Now I do not need psychiatric medicine any more. It was April that I found out about the NEFFUL products and in June I was pregnant. I was so happy. My children all came back home to me May 10.

**Migraines, physical fitness, sluggishness of young children, severe backache, dermatitis, allergic cysts**  
Lin Huiwei  
Usage: complete set of Tevion clothing

Before using the negative ion clothing products, I have been afflicted with migraine headaches for five or six years. I was too ill to do homework, and needed pain medication. My medicine dose and frequency increased, then I wore the clothing for three days and my pain was relieved. Now I had to decide whether to take of the negative ion clothing or take the medicine continuously. I chose to keep wearing the clothing. From that day on I have not had a headache or any medicine. If I had not personally experienced Tevion for myself, I would not have believed its great effect! I highly recommended the products to my family to improve my husband's lower body lines, and backache; the athlete's feet and dermatitis of my older son; and the sensitive dermatitis of my younger son. Then I shared my mysterious wonder of negative ions with relatives and friends. Xuehan's eldest daughter, Tingting, was two years old and could not walk because Tingting's lumbar vertebrae was injured during pregnancy. Tingting's diagnosis was physical ability retardation, which meant that she needed convalescent care. After Tingting used the products for one day and night, she had a surprisingly good reaction. So amazing was the effect, I would not believe it! We expect that Tingting will recover soon.

**Parkinson's, Ankylosing Spondylitis, Asthma, Sinus, High Blood Pressure**  
Chai Qiu Lin, Taiwan  
Products used: Whole set

In the beginning of 2000 I had a problem with my wrist so I went to see a neurologist who gave me all kinds of tests. The doctor said I needed to go see the neurologist. It was confirmed that I had Parkinson's disease. I kept searching eastern medicine to find a doctor who would tell me I do not have Parkinson. The eastern doctor who specialized in Neurology confirmed I had Parkinson's.

I wear acupuncture and massage and physical therapy. This only helped my muscles stiffness and I am going to be still shaking. I still did not have balance when I walked. I was thinking this is a death sentence and I am going to be doomed with this hopeless illness for the rest of my life. I did not know if this is my luck or what. I met my life savor Emay. She introduced me to Tevion products. I got all the supporters. After several days my hand was aching. I thought Oh this is before it gets better it gets worse. I increased the products to the whole set. Now after 6 months I can raise my hand high. I can walk a steady gait. I can walk a big step. I can raise my leg high. I can run and jog. I can even ride my motorcycle. In 5 years I have never been able to do this. But now I can do it. I am so happy and so thankful.

My mother had asthma and high blood pressure all has improved. My brother had sinus and Spondylitis. Before he needed to go to acupuncture and massage 2 or 3 times a week. Now he does not need to go anymore.

I am so thankful that Nellfu has such amazing product. I call Emay my aunt now. I am very thankful for my mom support and encouragement.

#### Polio

Lin sue Hung, Taiwan  
Products use: Whole set

When I was little I had polio. This caused my left side to atrophy. As a result it has been uneasy and inconvenient for me to walk. I married a man who also had polio. We repaired and sold cloths as a business. After we married we had two children. Since my pelvis was undeveloped and I had scoliosis of my spine the births of our children were through caesarian. This experience caused me to have severe back pain.

At end of 2002 my friend suggested that my husband use the Negative ion waist band because his atrophy caused him a lot of pain and problems. Soon after he started using the waist band he started feeling warmth on his back. Then he felt it all the way to the top of his head. He felt like his whole body was relaxed and he felt good. I knew the products would help my friend condition too.

On Feb 2003 my husband was diagnosed with a kidney problem. My friend suggested that he wear the whole set of negative ion clothes but we were reluctant to make the investment. In May my husband started dialysis. At that time the SARS epidemic was in full swing. My husband had a high fever and he was in critical care. We remembered about the negative ion clothes so I called my friend and I bought my husband the whole set. Three to 4 hours after dialysis my husband usually produced only a couple of drops of urine. After using the negative ion clothes for one month his fever went away and he urinated more than 100 cc.

During the summer it was terribly hot in Taiwan. Our ship was busy and we were so busy with our 2 children and the house work that my husband did not wear the negative ion clothes. I did not remind him to use his Nellfu clothes. In November 2003 my husband died because of kidney failure. I felt hopeless and tired, disappointed and frustrated thinking about my 2 children who were counting on me to care and provide for them. I had to be able to stand up and take care of my children. My friend encouraged me to be strong and take care of myself. In December I started wearing the product that I had gotten for my husband.

In June 2004 I saw a friend who had not seen me for several years. When he saw me he told me that my color looked good. He was surprised that I looked healthy. He noticed and said you are standing straight up. Why does your color look so good? He asked me: what is your secret remedy? He could not believe that I was so improved. What kind of miracle products are you using? I finally realized that my scoliosis had improved. In November I noticed that I can stand straight up and now my heels can touch the ground. From when I was little and for 40 years I never had the expectation that this would happen to me. I feel so good. I think The Nellfu Company for having such amazing negative ion clothes. Now I have hope and I have confidence to face my life.

#### Sickle Cell Anemia, Migraine Headache, Back Pain, Gout.

Ho Hany Lan, Taiwan  
Product use: Whole set

My mother in law has always had migraine headaches and back pain. One day she saw my friend, Ethan wear a special hat. She was curious and asked her about it. The next thing I knew she brought a hat and waistband home to use for herself. After a couple of days she told me that she feels like she has more energy and she was so happy that her headache and back pain had improved a lot.

I was curious about this product. It was a wonderful coincidence that Ethan came back to my home town at this time. I asked her about these products. She explained to me about these negative ion products. I thought about my husband who has a gout problem. I bought some under ware and a blanket for my husband. One week later his discomfort had improved.

When I was young I worked hard and for long hours. Now because of this I have a lot of illness. I have painful monthly cramps, a fibroid tumor and sickle cell anemia. At the time when I was working so much I could not take care of my illnesses. I bought some negative ion undergarments and supporters for myself. After a period of time my health has improved. I had edema on my feet. That edema has subsided. My monthly pain has disappeared. My vertigo has decreased. My health has much improved.

#### Sore waist, shoulder and neck stiffness, foot pain, constipation, hepatitis

Hu Xuduan  
Usage: complete set of Tevion clothing

I did business in the market, which required standing for a long time and this made my waist and back ache, caused shoulder and neck stiffness and pain from aching feet. These symptoms were very uncomfortable and painful and I worried that it would affect my business. I used a complete set of Tevion clothing and after only one month, I felt obvious improvement. After using it for five months, I experienced complete recovery from my pains. The most important improvements for me were the relief from long-term constipation, and a female problem, so now I do not need to buy medication at the drug store. The manner in which the negative ion health clothing of Nellfu Tevion works really cannot be seen or felt. If you are happy, you will understand that something amazing is happening. My friend had hepatitis, and when I told him about the Nellfu health clothing he bought a complete set. Although he was half-believing and half-doubting the results, after wearing the clothing for ten days, he went for an examination in the hospital, and discovered that his hepatitis was cured unexpectedly. He told me that the negative ion clothing was really a mystery. Helping people is a happy thing.

#### Rheumatoid arthritis, heart disease, kidney atrophy, edema

Gaoi from God  
Zhang Hui Feng  
Usage: complete use

One year ago, I was a rheumatoid arthritis patient who went to Jida constantly to check in and take medication. My knee joints are artificial, half of my hip joint is also artificial, my waist was stiff and could not straighten properly, my leg could not bend, wrist and articulations digitorum manus became deformed and my hand could not lift anything and would ache in the wind and rain or if I was getting cold or hot. I had taken steroids for eighteen years. As I became older, I developed heart disease, kidney atrophy, edema, high blood pressure, glaucoma, and insomnia. I was like an overworked machine that was beyond repair. During the spring festival my son suggested that I use some Tevion products for my waist, knees, hands and feet. In one week I felt relief and I bought a complete product line including the Lovely Snow brand. I had not slept soundly for a long time but now I sleep well. In about a month or two, all the symptoms of my diseases disappeared. It is a true gospel from God.

#### Soreness and pain in the waist and Back, Neck stiffness, Hypertension, Constipation, Micturition or Overactive bladder

Yu Hengji  
Usage: complete set of Tevion clothing

In six years, after parturition I have had severe aching in the waist and the back day after day. I could not even walk without supporting myself with my elbow, and when washing my feet I needed to sit on a small chair. I suffered with constipation, hypertension, and micturition or overactive bladder. I am a nurse and could not provide effective treatment for myself. I decided to use Tevion as an alternative treatment. After using the clothing, I no longer had constipation, my sore waist and backache improved tremendously on the fourth day, and all the pain disappeared on the sixth day. I bought a complete set of Tevion clothing, used it for three days, and after only two hours my neck stiffness improved and my neck could bend and turn. After using Tevion clothing, my daughter's atopy dermatitis and allergic rhinitis have been cured. Tevion is great!

#### 2 yrs. old child had Tumor in her eye

Mae Hsia, Taiwan  
Product used: whole set  
July 2002

At the end of 1995 I noticed that my daughter had a yellow spot in her eyes. I took her to our local hospital to check it out. My daughter had developed a malignant tumor in her retina. I was told that the chances of getting this kind of tumor were very rare. The doctor said the only way to save her was to remove her eye ball. Sometimes hospitals make a mistake in their diagnosis. I hoped this was the case. I went to another excellent big hospital in Taiwan and the prognosis was the same. We decided to go ahead with the surgery to remove the whole eye ball. After the surgery the Doctor assured us that there was no more malignancy. We brought our daughter home and in less than 3 months the malignant tumor came back. We went back to the hospital. We started radiation and chemotherapy on my poor little child. She lost her hair, her lips were dry and sore, she had nausea and vomiting. The whole therapy treatment took 2 years of therapy. This kind of therapy is very harmful for a 2 year old child. I was looking for the blessing in my sorrow for my child. I kept thinking that everything happens for a good reason.

In October of 1999 when I took my daughter back to the hospital for a check up, Sufan, introduced us to the negative ion clothing. She said this product would increase my daughter immunity to illness. I thought these clothes would not cause any bad side effects and they were easy to use. I got a few items of clothing for my daughter. After 8 months my daughter frequency of getting colds decreased. So I bought her the whole set and she got healthier and healthier. When I took her to the check up, the doctor found that she had grown 12 cm taller. He thought this was very unusual because children who are exposed to radiation and chemotherapy don't grow like that. He was afraid that the brain may have another tumor which may stimulate her growth hormone to make her grow so tall. They did a cat scan and results were normal. My daughter doesn't have to go to the emergency room any more. Her speed of growth is better than a normal child.

Even me, since I was a little kid I got bronchitis and coughs a lot. After I used the negative ion products this improved. I believe that the Tevion clothing has miracle results. It has made it possible for my whole family to have a happier and healthier life. After using the product for 9 months I quit my job with accounting. Now I am involved with a full time commitment to the Nellfu business. I am helping more people with their health and their wealth.

Thanks to Sufan, my angel, who introduced me to negative ion clothing. I consider it such a blessing that I am in the Nellfu family. A amazing miracle fiber is a blessing to me.

#### Testimony of a registered nurse in pain

Simple belief is a blessing.  
Product use: whole set  
Nancy Jang, Torba Linda, CA

I am a registered nurse, I used to hike and dance even though I had pain in my knees. I always thought these activities caused pain. I love to be naturally without medication and I thought pain was the price I had to pay to be active. In 1999 I fell because of uneven ground and I injured my neck and my shoulder.

The constant and severe pain was unbearable and it caused insomnia and depression. It caused the end of my 35 years career in the medical profession. I refused the epidural injections and surgery which my orthopedic doctor suggested. I tried cortisone shots, anti-inflammatory medication, pain medication, and sleeping pills, for several days. They didn't even give me temporary relief. I still had my pain. As a nursing professional I knew that cortisone shots and anti-inflammatory and pain medications all had bad side effects or they caused addiction.

I tried acupuncture, physical therapy, chiropractic and massage for more than 4 years and they just gave me temporary relief and still the pain woke me up after 1 or 2 hours of sleep. At least they didn't have bad side effects.

At the end of 2003 I was introduced to negative ion clothes and blankets. Even though I was skeptical about the results I decided to give myself a chance and try these products. I bought a whole set of the products as was suggested. When I got home I put everything on as instructed. I put on the bikini shirt and pants and another set of underclothes too and the hat and all of the supporters and the waist band, the neck warmer and the eye patch. Then I realized this is ridiculous. I was so angry I took them off. I got buyer remorse. Then I thought well, since I already bought it and I had been in pain for almost 5 years I decided to give myself a chance and I put it all back on. I went to bed in my blanket and I slept more than 12 hours. Usually I got up to go to the bathroom several times during the night. I don't think I even got up once that night. When I woke up in the morning, I was still in the same position that I was in when I went to bed. I slept like a baby. I was so happy and jumping up and down. I was thankful and I felt the blessing of having these products.

Anxiously my degenerative arthritis in my knees and my back pain have gone away. The white growth in my eye (like a cataract) which the doctor suggested I have removed surgically when it impacted my vision went away. My grey hair is improving. The broken spots on my face and my wrinkles are going away. I have slimmed down to a healthy weight. I was sick looking before and now I have a healthy glow. I am feeling and looking younger. Now I have no more pain when I go hiking and dancing. Because of these products my hiking performance has increased. I feel the blessing and I want to share the product with other people and help other people.
