Nefful Testimonials

We do not claim that Negative Ion products will cure your medical condition, but people have reported amazing health-enhancing effects. We have heard of many testimonials but we don't guarantee that the information on this website is correct at the time, and we reserve all rights to change any content at any time without any notice.

Acute Leukemia

Name: Chun shi zhe, Taiwan
Product use: Whole set
Life is so unpredictable. In June 2002 my life went through a big change. I was diagnosed with acute leukemia. My first symptom was a cold. I went to 4 different doctors and they all said I had a cold. In addition to the cold symptoms I had diarrhea, poor appetite, dizziness, general discomfort and I had lost a lot of weight. I thought it was because I was working too hard. When my vision became impaired and I was seeing black spots, I realize it was serious. I went to the hospital and I was diagnosed with acute leukemia. This was like a death sentence. I felt like someone had hit me with a base ball bat. Life became dark with depression. After chemo therapy my immune system decreased and I developed pulmonary edema. I continued to have diarrhea. The Doctor notified my family because I was in critical condition in an isolation room at the hospital. My parents would not give up. They brought lots of negative ion clothing and bedding in to the isolation room for me to use. I am so thankful that my primary doctor knows the benefits of negative ion clothing and he permitted it to be brought into isolation room. My parents brought me 3 sets of negative ion clothing including: blankets, supports and Eskimo shirts and pants. After chemo therapy I had to change clothes every 3 to 4 hours and my blanket every 3 days because the clothes and blanket reeked with a chemical and medication stench. The negative ion clothing took all of the chemicals out of my body right out through my skin. Those chemicals and medications from chemo therapy must be excreted or they cause kidney failure and then dialysis is the only way to get it out. After chemo therapy blood counts must rebound and are critical for fighting infections and complications. Lots of patients lose their lives because of this. The negative ion clothes helped me to recover and rebound more quickly. My energy level improved more quickly than others. I had a comparatively much shorter recovery time then others. After chemo therapy, while I was waiting for a bone marrow transplant, the SARS epidemic over-took Taiwan. The Nefful products got me through this time of crisis when I was not able to get a bone marrow transplant for an extended period. This product helped me safely pass this critical waiting period, and it helped my bone marrow transplant go smoothly. For example: when a farmer plants his field, the seed needs rich soil to harvest a good crop. The same thing is true with a bone marrow transplant: if the body is in healthy nourished physical condition it accepts the bone marrow transplant easily. The usual hospital stay after a bone marrow transplant is more then 40 days but only took me 28 days. After I was discharged I had to take cortisone to prevent my body from rejecting the bone marrow. Every time I went back to see the doctor they continued to decrease the dosage. As of Jan 2005 I no longer need medications. Now after using this amazing Nefful product for one and half years, not only am I without need for medication, I was able to travel to Egypt for one month and lead a normal life. Prevention is more important than therapy". Your health is priceless and you should take care of it. You should take care of your health when you are in good condition. Don't think you are young and healthy and disease is far from you. This product can give you a good immune system. I am so thankful that my parents introduced this product to me. I am thankful that the Nefful Company has such amazing products available to help people live a healthy lifestyle.

Breast cancer and Rheumatoid Arthritis

Media: TVBS website
Subject: Tang Hsiu-Pin stands up again Overcome breast cancer and Rheumatoid Arthritis!
(Reporter: Chuang Chih-Wei), Peng Kuang-Hsu reported in Taipei)Seven years ago, a woman, named Tang Hsiu-Pin, who suffered breast cancer accused her husband of an abortive homicide because her husband intentionally concealed her disease, and this case shocked the public. For several years, she suffered and almost died from the seriously deteriorating disease, and she also suffered from Rheumatoid Arthritis which disabled her, but now she has defeated the serious illnesses and stands up again. She uses her own experience to help more people to overcome their difficulties. Standing up from the sofa with the support of a cane is a simple act but it is a miracle that Tang Hsiu-Pin who once was unable to stand up for five years for serious arthritis. Tang Hsiu-Pin: " I'm very happy, but after I stood up, I had a new perception of my own experience, I found that my friends that were part these years are not as lofty as I imagined them before". You may forget that seven years ago this pleasant woman accused her betraying husband, who was a doctor, of intentionally concealing her breast cancer with the purpose of terminating their marriage, which was reported in newspapers as a lead story. Later, when her state of illness was in crisis, she decided to forgive her former husband and withdraw the accusation. Tang Hsiu-Pin: "I am really thankful that God has my life suffer from the painful torments. Due to the pain, I could comfort some people. Because I have gone through the pain and get better and better now, I could inspire other people." Tang Hsiu-Pin: "scarf I 430, Bye-Bye! As my body keeps improving and I can move more and more freely, my desire for living on becomes stronger and stronger"Her arthritis became serious because of her cancer, as a result she had been paralyzed for five years and often faced death until July of last year when some friends introduced her the negative ions clothing. Her illness was relieved after she started to wear those clothes, at last she can stand again and uses her own experience to promote the product, and can keep the pot boiling.

2 yrs. old child had Tumor in her eye

Mae Hua, Taiwan
Product used: whole set
July 2002
At the end of 1995 I noticed that my daughter had a yellow spot in her eye. I took her to our local hospital to check it out. My daughter had developed a malignant tumor in her retina. I was told that the chances of getting this kind of tumor were very rare. The Doctor said that the only way to save her was to remove her eye ball. Sometimes hospitals make a mistake in their diagnosis. I hoped this was the case. I went to another excellent big hospital in Taiwan and the prognosis was the same. We decided to go ahead with the surgery to remove the whole eye ball. After the surgery the Doctor assured us that there was no more malignancy. We brought our daughter home and in less than 3 months the malignant tumor came back. We went back to the hospital. We started radiation and chemotherapy on my poor little child. She lost her hair, her lips were dry and sore, she had nausea and vomiting. The whole therapy treatment took 2 years to finish. This kind of therapy is very harmful for a 2 year old child. I was looking for the blessing in my sorrow for my child. I kept thinking that everything happens for a good reason.

In October of 1999 when I took my daughter back to the hospital for a check up, Sufan, introduced us to the negative ion clothing. She said this product would increase my daughter immunity to illness. I thought these clothes would not cause any bad side effects and they would be easy to use. I got a few items of clothing for my daughter. After 5 months my daughter frequency of getting colds decreased. So I bought her the whole set and she got healthier and healthier. When I took her to the check up, the doctor found that she had grown 12 cm taller. He thought this was very unusual because children who are exposed to radiation and chemotherapy don't grow like that. He was afraid that the brain may have another tumor which may have inhibited her growth hormone to make her grow so tall. They did a cat scan and results were normal. My daughter doesn't have to go to the emergency room any more. Her speed of growth is better than a normal child.

Even me, since I was a little kid I got bronchitis and coughs a lot. After I used the negative ion products this improved. I believe that the Tevtron clothing has miracle results. It has made it possible for my whole family to have a happier and healthier life. After using the product for 9 months I quit my job with accounting. Now I am involved with a full time commitment to the Nefful business. I am helping more people with their health and their wealth.

Thanks to Sufan, my angel, who introduced me to negative ion clothing. I consider it such a blessing that I am in the Nefful family. This amazing miracle fiber is a blessing to me.

Cerebral Palsy

Ute Lin Z and a half year old girl
Premature baby born at 7 month
Mother - Tung Sue Jan
Product used: Whole set
During my daughter delivery her brain did not get enough oxygen. Her right and left brain hemorrhaged. The doctor assessed cerebral palsy. This was followed by all extremity handicaps. We relied on rehab to help her. June 2001 she started rehab. She has been in Rehab for about 2 years. Until now there has been no improvement in her hands. Her feet are still stiff. At the end of March 2003 my sister told me about a miracle fiber called Tevtron that was helping people. In the beginning of April I bought the whole set of negative ion clothes for my daughter. In May she was eating by herself and was improving a lot. Now my daughter can memorize poems. She can count 1 to 10 and she can recognize and name the colors. In daily communication she can express her self well. Her extremities and her hands and feet have no problems at all. She can move any way she wants. She has good hand eye coordination and good large and small motor skills. Now she can walk with big steps and she can crawl. When she sits down she can stand up with the support of the rail. My daughter used to be very agitated with a bad temper. Now she is mellow and gentle. She constantly had lung congestion. She had mucus all of the time now her lungs are clear. As a parent I am so happy to see my child have health and a normal life. There is nothing you can compare to the joy of seeing your child healthy. It is most important.

Arrhythmia, high blood pressure, Perspiring hands, menopause.

Sue Sie Zhiu, Taiwan
Product use: whole set
Since I was a child I have been sick and weak. I have always had medical problems. March of this year my friend introduced me to negative ion products. I was happy because I believed this is the start of my good life. I purchased 2 whole sets of negative ion clothes. My husband and I used it diligently. Soon my monthly cramps went away. Three weeks after starting to use these special clothes my heart palpated which caused my murmur and arrhythmia no longer bothered me. Now I don't have tightness in my chest or perspiring hands. This is the first time in my life that my hands are dry. I have used the product for 5 months and now I don't catch cold easily. I no longer have a hard time to catch my breath. My hands no longer hurt from using the computer. My belis palsy has improved remarkably. I used to have acidic stomach and allergy to milk products and I was plagued with intestinal gas and diarrhea and now no more. My estrogen is balanced so my emotions are more stable. I am calm and happy and I have no more hot flashes. No more back pain. My husband sleeps well every day and he no longer complains of tiredness. My husband blood sugar and high blood pressure is getting normal. He looks younger and he is more energetic.

Now I am so energetic and with good spirits. I can eat and sing and dance. Now I am like a new person. You deserve to own negative ion clothing and bedding too.

Kidney Failure, Diabetes, Autonomic Nerve Dysfunction, Insomnia, Headache and Weak Heart

Name: Kaub Ming Hung
Product use: whole set
When my mom was young she worked hard even though her blood sugar was over 400. She ignored her diabetes which is very harmful. Her metabolic system was severely damaged. When she was older she was plagued with all kinds of illnesses because of her diabetes and her metabolic problems. As she got older she got worse. More and more problems piled up. She was on insulin since 1986. Till now in July of 2002 she has been hospitalized every year 3 to 4 times to adjust her insulin dosage. More complications have been happening one right after the other. Her eyes got cataracts so she had surgery. Her heart was weak and she had angina. Because of her diabetes her health deteriorated. The doctors were afraid to do anything. Surgery would be dangerous because of her diabetes. Her kidneys failed and she needed dialysis. She got neuropathy of her feet and hands. She got degenerative arthritis and insomnia. She took 2 or 3 sleeping pills at a time but she still could not sleep. My mom was such a caring loving person she still took care of my father every day. Two years ago my father suddenly passed away. My mother was so mentally depended on her husband she became despondent and all of her illnesses became more pronounced. As a son I did not know how to take care of my mother. In this critical period our life saver Lin Ute an AGM with the Nefful Company, introduced me to negative ion products. My mom did not like direct sales and she told me not to buy it. I tried very hard to convince her to try it. I got her a clean cloth to put around her neck. She felt good because of the clean cloth. Her neck felt much better so I got the whole set for her. Now my mom uses the whole set of Tevtron her health has much improved her blood sugar had been 450 to 500. It dropped down to 120 to 180. The insulin dose dropped 8 units. Her heart no longer needed nitroglycerine. Her kidney function has much improved and she did not need dialysis any more. Amazingly now she does not need sleeping pills to make her sleep. Now she eats well and sleeps well. Her immunity has improved and has helped her fight all her illnesses. Thanks for Lin Ute for encouraging me and I have such a blessing using this amazing products. Now I have success in this helping people business.

Testimony of a registered nurse in pain

Simple belief is a blessing.
Nancy Jang, Yorba Linda, CA
Product use: whole set

I am a registered nurse, I used to hike and dance even though I had pain in my knees. I always thought these activities caused pain. I love to live naturally without medication and I thought I had pain because I was active. In 1999 I fell because of uneven ground and I injured my neck and my shoulder. The constant and severe pain was unbearable and it caused insomnia and depression. It caused the end of my 35 years career in the medical profession. I refused the epidural injections and surgery which my orthopedic doctor suggested. I tried cortisone shots, anti-inflammatory medication, pain medication, and sleeping pills, for several days. They didn't even give me temporary relief. I still had my pain. As a nursing professional I knew that cortisone shots and anti-inflammatory and pain medications all had bad side effects or they caused addiction. I tried acupuncture, physical therapy, chiropractic and massage for more than 4 years and they just gave me temporary relief and still the pain woke me up after 1 or 2 hours of sleep. At last they didn't have bad side effects. At the end of 2003 I was introduced to negative ion clothes and blankets. Even though I was skeptical about the results I decided to give myself a chance and try these products. I bought a whole set of the products as was suggested. When I got home I put everything on as instructed. I put on the Eskimo shirt and pants and another set of underclothes too and the hat and all of the supporters and the waist band the neck warmer and the eye patch. Then I realized this is ridiculous. I was so angry I took them off, I got buyer remorse. Then I thought well, since I already bought it and I had been in pain for almost 5 years I decided to give myself a chance and I put it all back on. I went to bed in my blanket and I slept more than 12 hours. Usually I got up to go to the bathroom several times during the night. I don't think I even got up one that night. When I woke up in the morning, I was still in the same position that I was in when I went to bed. I slept like a baby. I was so happy and jumping up and down. I was thankful and I felt the blessing of having these products. Amazingly my degenerative arthritis in my knees and my back pain have gone away. The white growth in my eye (like a cataract) which the doctor suggested I have removed surgically when it impacted my vision went away. My grey hair is improving. The brown spot on my face and my wrinkles are going away. I have slimmed down to a healthy weight. I was sick looking before and now I have a healthy glow. I am feeling and looking younger. Now I have no more pain when I go hiking and dancing. Because of these products my hiking performance has increased. I feel the blessing and I want to share the product with other people and help other people.

#### **Knee joints' pain**

**Kathleen Israel, San Diego, CA**

**Product use: whole set**

Did you ever hear of NEFFUL's Teviron, the amazing fiber imported from Japan has unique capacity of always gaining electrons and thus negatively charged which is beneficial to our health? I am so glad I was introduced to this product and give myself a chance to accept it. I had arthritis in my knees. When I used to go to church I couldn't kneel properly and it hurt. Now I can kneel easily with no pain. It is so cool! I bought underwear and joint supports and bedding. I love to sleep in my Teviron blankets. It is like sleeping in negative ions spa so restful and I don't think I ever got up one that night. When I put on my undergarments and supports on my ankles, knees, elbows and wrists. During the day the negative ion cloth acts like a sponge soaking up my positively charged toxins. I wash the clothing before I go to bed to clean the positive ion gunk off of the negative ion fibers and I hang it up to dry. I didn't even realize my ankles were uncomfortable. When I put on the ankle supports it felt so good. The same thing happened when I put the hat on. I didn't realize my ears were uncomfortable. The comfort I felt when my ears were in the hat was mellow and it made me smile.

#### **Macular degeneration, Joints pain, Tendonitis, aging spots, sun damage, wrinkles**

**Gwen Spires, Fullerton, CA**

**Product use: whole set**

My name is Gwen Spires. I am 70 years old. In June of 2005 my vision became blurred. The ophthalmologist diagnosed me with macular degeneration. I was told there was nothing that would help except to take vitamins to slow down the progression of this degenerating eye disease which eventually would cause me to go blind. I was very depressed thinking of all the things that would happen when my eyesight left. About 4 weeks later I was introduced to an amazing product called Teviron imported from Japan by my friend named Nancy. At first I thought this was some kind of scam; but, thinking that I would go blind eventually, I gave myself a chance. I started using these products of clothing and bedding including an eye patch and a hat made of Teviron fiber. Three weeks later the blurred vision had improved and I was very inspired by the results. I am inspired by other amazing results also. Some of the pain in my joints and my hemorrhoids has also gone away. The sun damage, aging spots and wrinkles on my skin has greatly improved. I am now feeling and looking younger. I can see a remarkable improvement after three months of using Teviron products. I can imagine that if I continue using this product it will continue to have a remarkable improvement of my health and quality of life. I feel like I am in a cocoon of energetic happiness. Gwen

#### **Manic Depression and Hyperthyroidism-Hypothyroidism**

**NEFFUL gave me back my beautiful life**

**Yu Teng Shin, Taiwan**

**Products use: whole set**

Three and a half years ago I was diagnosed with congenital hyperthyroidism. Frequently I used cortisone and frequently I had a high fever. I had to go to the emergency room a lot so I could not take care of my house work and I could not take care of my children. I could not enjoy my relationship with my husband. Several months later I found out that I had manic depression. It was said that I inherited it from my father and I was wondering who God was playing with me in this way. I was confined to a psychiatric hospital for 2 years even though I had determination to fix my illness I still could not fight the depression. I tried hard to fight the disease. Because of the pressures in my life the illness came back again. I wanted to cry but I had no tears. I was angry with God because He sentenced me to have this problem. After 2 years I was readmitted to hospital again. I cried every time I saw my children crying. They were taken away from me and given to my mother who took care of my children while I was in hospital. When my children cried I just could not take it. I was so hurt. I do not know how many days and nights I cried. I miss my children. They used iodine therapy for my hyperthyroidism so I could temporarily improve my health. I had side effects and which caused me to have hypothyroidism. Then I did not have monthly periods. I suffered painful result after painful result. Now I am so thankful for NEFFUL products. One month after I got the whole set of negative ion clothes and blanket I had my monthly period again. My manic depression disappeared along with my insomnia and anxiety and muscle cramps. Now I do not need psychotropic medicine any more. It was April that I found out about the Nefful products and in June I was pregnant. I was so happy. My children all came back home to me May 10.

#### **Parkinson's, Ankylosing Spondylitis, Asthma, Sinus, High Blood Pressure**

**Chai Quai Jen, Taiwan**

**Products used. Whole set**

In the beginning of 2000 I had a problem with my wrist so I went to see a neuro surgeon who gave me all kinds of tests. The doctor said I needed to go see the neurologist. It was confirmed that I had Parkinson's disease. I kept searching eastern medicine to find a doctor who would tell me I do not have Parkinson. The eastern doctor who specialized in Neurology confirmed I had Parkinson's. I went to acupuncture and massage and physical therapy. This only helped my muscles stiffness but my hands were still shaking. I still did not have balance when I walked. I was thinking this is a death sentence and I am going to be doomed with this hopeless illness for the rest of my life. I did not know if this is my luck or what. I met my life savior Emay. She introduced me to Teviron products. I got all the supporters. After several days my hand was aching. I thought Oh this is before it gets better it gets worse. I increased the products to the whole set. Now after 6 months I can raise my hand high. I can walk a steady gait. I can walk a big step. I can raise my leg high. I can run and jog. I can even ride my motorcycle. In 5 years I have never been able to do this. But now I can do it. I am so happy and so thankful. My mother had asthma and high blood pressure. My brother had sinus and Spondylitis. Before he needed to go to acupuncture and massage 2 or 3 times a week. Now he does not need to go anymore. I am so thankful that Nefful has such amazing product. I call Emay my aunt now. I am very thankful for my mom support and encouragement.

#### **Polio**

**Lin sue Huey, Taiwan**

**Products use: Whole set**

When I was little I had polio. This caused my left side to atrophy. As a result it has been uneasy and inconvenient for me to walk. I married a man who also had polio. We repaired and sold clocks as a business. After we married we had two children. Since my pelvis was undeveloped and I had scoliosis of my spine the births of our children were through c-section. This experience caused me to have severe back pain. At end of 2002 my friend suggested that my husband use the Negative ion waist band because his atrophy caused him a lot of pain and problems. Soon after he started using the waist band he started feeling warmth on his back. Then he felt it all the way to the top of his head. He felt like his whole body was relaxed and he felt good. I knew the products would help my health condition too. On Feb 2003 my husband was diagnosed with a kidney problem. My friend suggested that he wear the whole set of negative ion clothes but we were reluctant to make the investment. In May my husband started dialysis. At that time the SARS epidemic was in full swing. My husband had a high fever and he was in critical care. We remembered about the negative ion clothes so I called my friend and I bought my husband the whole set. Three to four hours after dialysis my husband usually produced only a couple of drops of urine. After using the negative ion clothes for one month his fever went away and he urinated more than 100 cc. During the summer I was terribly hot in Taiwan. Our shop was busy and we were so busy with our 2 children and the house work that my husband did not wear the negative ion clothes. I did not remind him to use his Nefful clothes. In November 2003 my husband died because of kidney failure. I felt hopeless and tired, disappointed and frustrated thinking about my 2 children who were counting on me to care and provide for them. I had to be able to stand up and take care of my children. My friend encouraged me to be strong and take care of myself. In December I started wearing the product that I had gotten for my husband. In June 2004 I saw a friend who had not seen me for several years. When he saw me he told me that my color looked good. He was surprised that I looked healthy. He noticed and said you are standing straight up. Why does your color look so good? He asked me: what is your secret remedy? He could not believe that I was so improved. What kind of miracle products are you using? I finally realized that my scoliosis had improved. In November I noticed that I can stand straight up and now my heels can touch the ground. From when I was little and for 40 years I never had the expectation that this would happen to me. I feel so good. I thank The Nefful Company for having such amazing negative ion clothes. Now I have hope and I have confidence to face my life.

#### **Sickle Cell Anemia, Migraine Headache, Back Pain, Gout**

**Ho Huey Lan, Taiwan**

**Product use: Whole set**

My mother in law has always had migraine headaches and back pain. One day she saw my friend, Ethan wear a special hat. She was curious and asked her about it. The next thing I knew she brought a hat and waistband home to use for herself. After a couple of days she told me that she feels like she has more energy and she was so happy that her headache and back pain had improved a lot. I was curious about this product. It was a wonderful coincidence that Ethan came back to my home town at this time. I asked her about these products. She explained to me about these negative ion products. I thought about my husband who has a gout problem. I bought some under wear and a blanket for my husband. One week later his discomfort had improved. When I was young I worked hard and for long hours. Now because of this I have a lot of illness. I have painful monthly cramps, a fibroid tumor and Sickle cell anemia. All the time when I was working so much I could not take care of my illnesses. I bought some negative ion undergarments and supporters for myself. After a period of time my health has improved. I had edema on my feet. That edema has subsided. My monthly pain has disappeared. My vertigo has decreased. My health has improved.

#### **Type 1 diabetes**

**Chung wuan zu, Taiwan**

**Product use: Whole set**

I was 18 years old when I was diagnosed with type 1 diabetes. I spent the golden years of my youth taking medication all of a time. I was tired of taking medication. I used all of the wisdom of eastern and western medicine. I tried vitamins and supplements. I asked Buddha to help me to lower my blood sugar. I searched tirelessly to find anyway that I could help myself until I got a bleeding ulcer. Then big lump grew on the palm of my hand. I had to have this lump surgically removed. I had to stay in critical care for 3 days because I was a diabetic having surgery. I was weak and my immunity was bad. Medicine was my company every day. When I was 38 years old I had a neuroathy on my foot. I lost the feeling on my foot. Because of my financial condition I still had to work as a housekeeper. I got a crack on the bottom of my left foot. It got infected. It caused cellulites and I had a constant fever. The doctor had to amputate my big toe and my small toe to save my life. On the bottom of my left foot the doctor cut two big holes to remove the dead tissue. Within 2 and half years I was in and out of the hospital 12 times. In the hospital I got antibiotic or cortisone shots. I thought that God must have a good reason for my trouble. My angel or friend, Shu Mei told me about a high tech product of negative ion clothes that would improve my health. I was skeptical but I wanted to give it a try. I dared to take all of those medications with all kinds of side effects. I reasoned, why was I afraid to wear these clothes that couldn't harm me. So I bought the whole set and this is really a miracle. Within the short period of 3 months my blood sugar dropped from 400 to 130. The bottom of my foot was healed and not bleeding any more. I was happy and my illness that I wanted to share this negative ion product with other people. Through this business I was able to get out of poverty. My life has gone from black and white to colorful. I am thankful for this amazing product.

#### **Type 2 Diabetes 11 years, Pain and Stroke**

**Chen Chi Chung, Taiwan**

**Product: Whole set**

In 1991 I was diagnosed with diabetes my blood sugar was 365. On that day my life became colorless. The doctor prescribed medication. I saw all of the famous doctors that my friends introduced me to. I spent 11 years switching from doctor to doctor making myself a guinea pig for all of their cures. Until May of 2002 when my daughter brought home a big package of special clothes and a blanket. She told me if I wear this it would improve my health as well as the diabetes and pain. I really did not believe it would help because I was in the Chinese medicine business. I thought about my daughter and how caring she was so I used it. The second day I went to check my blood sugar it was 223. One month later I checked it again and my sugar was 222. I came home and told my daughter that this product is not helping me any more. She called her AGM. The AGM told the daughter that her father needed more Negative Ion products. So then she brought me all of the supporters. I had the full set. In 4 and a half hours I went to the bathroom 5 times. The whole night I didn't sleep. The first night I went to the bathroom 5 times second 4 times and each night I had to get up less and less. The second month after I used the full set, I went to check again the blood sugar dropped to 192. The bottom of my foot was healed and not bleeding any more. I was happy and my life is colorful again. My friend wife had a stroke 5 years ago. She couldn't even go to the bathroom by herself. She couldn't walk. She couldn't do anything for herself. She needed constant daily living assistance from her husband. In May of 2005 she started using negative ion clothing and bedding. Before she used the product she urinated every 4 hours. After the second day of using the product she urinated every 2 hours and the volume was double. When she started using the product she wore 3L waist band. After 3 days the waist band was too loose. After 25 days she was able to stand up with the support of both hands on the wheel chair. In 28 days she could stand up easily holding on with one hand. After 47 days she took her first unassisted step in 5 years. If you use the full set soon you will have a good result you want.

**Insomnia, headache, maladjustment of nervous system, depression**  
**Lin Meijiao**

**Usage: complete set of Tevion clothing**

I had body aches, which caused me to take medicine for many years for a host of symptoms such as headaches, poor immune system, terrible backache, rheumatoid arthritis, and nervous system maladjustment. My pain made me miserable beyond description, my symptoms were serious, and this made me extremely depressed. After hearing a report about Tevion clothing, I began to wear a complete set of it. In about ten days my insomnia improved and I noticed that my resistance also improved. Before using Tevion, I caught colds often, but now months go by when I don't catch colds. Before using Tevion, I needed to take medicine three times a day for my back pain, but now I only take medicine once a day, and even when I forget to take medicine sometimes I feel no pain. My mother-in-law saw that my symptoms were greatly improving, so she now uses a complete set of Tevion clothing to help her joint swelling and pain. She moves with much more ease and since her pain is gone she is able to serve in her community, and she has discovered the pleasure of helping others. I thank the mysterious negative ions for bringing this benefit to Mankind.

**Migraines, physical fitness, sluggishness of young children, severe backache, dermatosis, allergic coryza**

**Lin Huimei**

**Usage: complete set of Tevion clothing**

Before using the negative ion clothing products, I have been afflicted with migraine headaches for five or six years. I was too ill to do homework, and needed pain medication. My medicine dose and frequency increased, then I wore the clothing for three days and my pain was relieved. Then I had to decide whether to take off the negative ion clothing or take the medicine continually. I chose to keep wearing the clothing. From that day up to now, I have not had a headache or any medicine. If I had not personally experienced Tevion for myself, I would not have believed its great effect! I highly recommended the products to my family to improve my husband's lower body tinea, and backache; the athlete's feet and dermatosis of my elder son; and the sensitive dermatitis of my younger son. Then I shared my mysterious witness of negative ions with relatives and friends. Xiushan's eldest daughter, Tingting, was two years old and could not walk because Tingting's lumbar vertebrae was injured during pregnancy. Tingting's diagnosis was physical ability retardation, which meant that she needed convalescent care. After Tingting used the products for one day and night, she had a surprisingly good reaction. So amazing was the effect, I would not believe it! We expect that Tingting will recover soon.

**Sore waist, shoulder and neck stiffness, foot pain, constipation, hepatitis**

**Hu Xiuduan**

**Usage: complete set of Tevion clothing**

I did business in the market, which required standing for a long time and this made my waist and back ache, caused shoulder and neck stiffness and pain from aching feet. These symptoms were very uncomfortable and painful and I worried that it would affect my business. I used a complete set of Tevion clothing and after only one month, I felt obvious improvement. After using it for five months, I experienced complete recovery from my pains. The most important improvements for me were the relief from long-term constipation, and a female problem, so now I do not need to buy medication at the drug store. The manner in which the negative ion health clothing of Nefful Tevion works really cannot be seen or felt, but if you wear it you will understand that something amazing is happening. My friend had hepatitis, and when I told him about the Nefful health clothing he bought a complete set. Although he was half-believing and half-doubting the results, after wearing the clothing for ten days, he went for an examination in the hospital, and discovered that his hepatitis was cured unexpectedly. He told me that the negative ion clothing was really a mystery. Helping people is a happy thing.

**High glycosides, abnormal blood circulation, high uric acid**

**All I can do is be grateful**

**Liu Hui Fang**

**Usage: complete set of Tevion clothing**

Working hard for many years created many problems in my body including high GOT, GPT, high glycosides, and even pain on foot. Yongquan acupoint. Lack of movement resulted in heavy body weight, abnormal blood circulation, hand numbness and soreness when I slept every night, and I would cough if I spoke too much. These symptoms were not improved by integrated traditional and western medicine. I had some reactions after using the products, but I only wore it for several days. The pain in my foot would increase every day when I wore the clothing. When I initially wore the scarf, I seemed to cough all the time. I thought I had been cheated but learned afterwards that these were improvement reactions. I was impatient, so I wet to homeostasis and chemical analysis after wearing the clothing for about one month. My triglycerides decreased from 202 to 100 (the normal level is below 160), uric acid decreased from 6 to 4.4 (the normal level is below 7), Yongquan acupoint on the foot was not painful anymore, symptoms of hand soreness and numbness improved completely, and the cough had also been improved. All I can do is grateful.

**Allergic physical condition, common cold, asthma**

**Jian Wen Lang**

**Usage: complete set of Tevion**

My child had dermatitis after his birth, with a final diagnosis of allergic physical condition. This altered our life in that we had to become acutely aware of our food, drink and surroundings. Then I found out that my child also had sinusitis, caught colds frequently, and his asthma would always be triggered by a cold so he needed to take antibiotics. I went to every specialist I could, but none of them could cure my son completely. It was two years ago when I bought two sets of clothes for my child, then a complete set of Tevion. Half a year later, he did not need to take antibiotics after catching a cold, because his immune system was greatly improved and his skin was cured completely.

**Constipation, asthma, hypotension or low blood pressure**

**Lin Xiu Qing**

**Usage: complete set of Tevion clothing**

My daughter was constipated when she was two years old. At first, I had not paid enough attention about it and only visited a clinic near my home. However, there was no improvement in her condition and its severity intensified; traditional Chinese medicine and medical doctors were unable to help. We then used the primitive and cruel method, colocolysis, though I worried she might have abnormal defecation. I also worried that her vulnerable intestines might become damaged if she used this method continually. During that time, my friend, Xiaojun, told me that negative ions could improve my daughter's problem so I bought the clothing for her. My daughter recovered, but quite unexpectedly, her immunity over colds and her ulcer also improved completely. I bought the products for my family. It improved my mother-in-law's asthmatic condition, my gynecological problem, and my hypotension has improved from 50-80 to 75-110. It is great!

**Hysteromyoma, nervous system maladjustment**

**Xu Guixiang**

**Usage: complete set of Tevion clothing**

I lived in Brazil for six years and had profuse uterine bleeding. I moved to St. Paul and my health worsened. I then took medication for half a year and my health still did not improve. When I was examined, the diagnosis was a uterine tumor. After an operation in Taiwan, my doctor said it was nervous system maladjustment. When I heard about Tevion products, I did not believe the claims but after wearing the clothing my health improved and the white hairs on my head gradually turned black. My husband got acupuncture, cupping, bathed in hot spring baths and cold spring baths to improve the pain in his knee, took calcium tablets and vitamins; but he did this to no avail. After using the knee pad for a week, he has not had any pain for the last three months. This has been unbelievable good luck for us. It also gave us a chance to be able to help other people who need to improve their health.

**Soreness and pain in the waist and back, neck stiffness, hypertension, constipation, micturition or overactive bladder**

**Yu Mingli**

**Usage: complete set of Tevion clothing**

In six years, after parturition I have had severe aching in the waist and the back day after day. I could not even wash without supporting myself with my elbow, and when washing my feet I needed to sit on a small chair. I suffered with constipation, hypertension, and micturition or overactive bladder. I am a nurse and could not provide effective treatment for myself. I decided to use Tevion as an alternative treatment. After using the clothing, I no longer had constipation, my sore waist and backache improved tremendously on the fourth day, and all the pain disappeared on the sixth day. I bought a complete set of Tevion clothing, used it for three days, and after only two hours my neck stiffness improved and my neck could bend and turn. After using Tevion clothing, my daughter's atopy dermatitis and allergic rhinitis has been cured. Tevion is great!

**Aches, urinary, hypertension, heart disease, gout**

**Qiu mei ju**

**Usage: complete usage**

After my classmate, Sujin, had an operation because of colon cancer, she used the complete Tevion product and she saw very positive results. I trusted my classmate and used the product. At the beginning, my husband and I used the Tevion blanket together, and I bought him Tevion underwear, because he had diseases, which include hypertension, heart disease, and gout which would require that he seek emergency treatment at times. I could not believe that I am so lucky. I got well and my husband has been improving. Tevion is improving my family's health.

**Hypersensitiveness body, midrange language retardation**

**Zhong jin wei**

**Usage: complete use**

My wife and I are hypersensitive and both of my daughters have a hypersensitive constitution. My younger daughter's situation was the worse; she had to drink aminopeptidate milk powder before she was one year old. She often needed to be taken to the hospital because she got colds, had trouble breathing, accumulated mucus, and she would cry because she was always constipated. However, after my daughter wore the Tevion underwear, she breathes more easily and her mucus decreased and could be easily expectorated. I came to trust the product and bought the complete set. My eldest daughter had always been one of few words, always expressed herself through gestures, and could say "mama" but not "dad". when she was four years old, we became aware of the importance of this situation. This came as a great shock. I took my daughter to see all sorts of doctors and tried every kind of treatment, but it was to no effect. My daughter wore the Tevion clothing that was used to improve her hypersensitive constitution and her brain cells were activated. She first learned a few more words, and then she progressed to sing an entire song, and is beginning to express what she wants to say in words. In the past, the expression in her eyes was uncertain; now she could listen to my story attentively; and calls me "dad". I am very excited!

**Hypersensitiveness of the body**

**Mystery of negative ions**

**Liao Weizhi (Florida in the USA)**

**Usage: complete use**

I emigrated from Taiwan to the U.S. twenty years ago. I started out with nothing but became very successful. I began to have some health problems after wearing down my body for fifty years. I learned that a small disease will become serious if not treated. One day I got wet in the rain, then I felt my throat aching and got a cold. I used the Tevion neck protection for treatment. Three days later, I got well. Six days later, I realized that a small scar that I had been about 0.5 cm long disappeared. I was very astonished. From that day on, I came to learn about the mystery of negative ions to the human body, and even found that the negative ion is the key factor that can improve people's health in the future. This has been generally accepted by many research reports from famous medical colleges in the USA. Until now, products have not been available that contain negative ions. I have been using the Tevion products exclusively for five months, and I feel like I am ten years younger.

**Allergic coryza**

**Zheng Mei Zhu**

**Usage: complete use**

I have worked on the mainland for a long time. In my earlier years, I was healthy, but in my later years my power of resistance decreased. I always got colds with nasal obstruction and coughing, I could not sleep well, and the medicine I was taking simply had no effect. I always sneezed in the morning after I got up, and could not breathe easily because of nasal obstruction. I suffered immensely. I went to the largest hospital in Guangzhou, South Hospital, and was diagnosed with allergic coryza. According to the doctor's instructions, I took medicine and drank soup (straw mushroom stewed with lean meat, one bowl a day). However, there was no improvement. One time I was taken to South Hospital for half a month because of fainting that was induced by lung inflammation. At that time, I felt lonely and depressed. I came back home for the New Year celebration, and spent a few ten thousand yen on the Nefful products. After some time, my morning sneezes stopped and I could breathe easily. I have been using the Tevion health clothing for two years. I no longer get colds and my immunity has been enhanced. After using Tevion, my life has gone from black and white to colorful. This wonderful feeling cannot be expressed. I am very lucky and want to share how to attain good health with every one.

**Rheumatoid arthritis, heart disease, kidney atrophy, edema**

**Gospel from God**

**Zhang Hui Fang**

**Usage: complete use**

One year ago, I was a rheumatoid arthritis patient who went to Jlada constantly to check in and take medication. My knee joints are artificial, half of my hip joint is also artificial, my waist was stiff and could not straighten properly, my leg could not bend, wrist and articulations digitorum manus became deformed and my hand could not lift anything and would ache in the wind and rain or if I was getting cold or hot I had taken steroids for eighteen years. As I became older, I developed heart disease, kidney atrophy, edema, high blood pressure, glucosuria, and insomnia. I was like an overworked machine that was beyond repair. During the spring festival my son suggested that I use some Tevion products for my waist, knees, hands and feet. In one week I felt relief and I bought a complete product line including the Lovely Snow brand. I had not slept soundly for a long time but now I sleep well. In about a month or two, all the symptoms of my diseases disappeared. It is a true gospel from God.
