

### Are any of you taking any of these drinks???

July 14, 2010 at 3:42am

Monavie, Xango, Tahitian Noni, Freelife ?

Heard of eXfuze Seven ??

I'm trying to post here and answers is taking a coffee break so I guess I have to leave ya'll with this...

[www.exfuze.com/jrwansanei](http://www.exfuze.com/jrwansanei)

I will just add details... The reason eXfuze is THE BEST EVER is because:

1. I've learned that eXfuze is the only company that uses extracts in the world personally from paul morris himself! anyone can call eXfuze to verify this. plus thats why they have the name ex-fuze.....ex for extracts and fuze for fuzing superfruits or botanicals together.

2. In a nutshell..... Mona vie, Xango, Tahitian Noni, Freelife, are only 4 of the seven major companies that are doing really well. you can forget about the rest! they are currently ranging from 30 to 82 million dollars a month! that is insane for any company by any means. However, they all use concentrates with all of their super botanicals.

Mona Vie is doing really well right now,because they are the ones that did 82 million last month, and they have been in business for 2 years, all they sell is the Acai, all Xango sells is the Mangosteen, all Tahitian noni sells is the Noni fruit, all Freelife sells is the gogi fruit..... and so on and so on.... now they all have extra added ingredients, but only one superfruit!

Exfuze has created the worlds 1st Multi Botanical Nutritional Functional Beverage! ever, and has all seven superfruits, for about the same price as all the rest! who is not going to make the switch to seven+ from all the other companies! distributors and customers alike! yes there will be others to follow our trend, however we are pioneering this explosion!

3. All nutritional drinks are natural vitamins in a liquid form. The body only retains about 5% of a vitamins nutrients in a pill form because they are so tightly compacted, However a vitamin that is in a liquid form such as all these nutritional drinks, the body retains about 85% of its nutrients because it hits your bloodstream almost instantly!

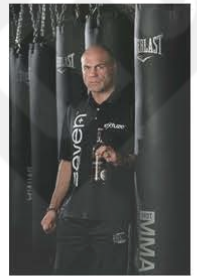

4. One of the seven ingredients in eXfuze seven+ is the fucoidan. there have been over 675 clinical studies showing that fucoidan helps combat existing cancer cells in the body, and prevents the body from forming more because it helps rid the body of alkaline. cancer can not live in a non-alkaline environment. they use fucoidan in most all major cancer research institutes.

5. Nobody really has to stop drinking what they are drinking currently, or stop taking their multi vitamin Pill but say someone is drinking the Mona Vie drink, that's a great drink, it says right on the bottle "THE PREMIER ACAI BLEND".....wow! that's just one of exfuze's superfruits, eXfuze has: "GAC, ACAI, GOJI, NONI, FUCOIDAN, MANGOSTEEN, SEABUCKTHORN" right on their bottle. And the PLUS ingredients from the "Seven+" are: POMGRANATE, WILD BLUE BERRIES, ALOE VERA, CONCORD GRAPES"! So people can continue on drinking their one superfruited drink or decide to Explore the Power of All Seven+ superfruits for about the same price. all the other drinks out there range from 35 to 55 dollars retail price that is. and some of the drinks recommend that you take 2 ounces 2 times a day! ours is only 3/4 to an ounce a day!

well for a distributor that's about a dollar a day for optimal health. a whole lot cheaper than an energy drink a day that is actually very bad for your body.

6. And the first person you have to get sold is yourself, if you have any doubt in your voice or your words that you don't believe in your heart whatever it is your promoting, then the product or service your promoting will not sell!

Any questions? lol People who drink eXfuze are known for their experiences which invite more and more people to try eXfuze then become on it "for life"... the testimoies I've heard so far are: Not a single headache No more back and body aches Regulated blood sugar Lowered Cholesterol Natural energy-no gitters at all. (eXfuze is NOT an energy drink!) The natural energy comes from the Goji Fruit ingredient in eXfuze Seven+ No more arthritis pains Weight loss (eXfuze is also NOT a weight loss drink) Focuseness and concentration is improved than ever before ...to name quite a few.

END.
